## Round cylinder ESEU-40-50-P-A Part number: 191171

**FESTO** 

End cap with threaded pins and swivel bearing. Type to be discontinued. Available until 2011.

## **Data sheet**

| Feature                                    | Value  |
|--|--|
| Stroke                                     | 50 mm  |
| Piston diameter                            | 40 mm  |
| Cushioning                                 | P: Flexible cushioning rings/plates at both ends |
| Assembly position                          | Any  |
| Design structure                           | Piston   |
|  | Piston rod                                       |
|  | Cylinder barrel                                  |
| Position detection                         | For proximity sensor                             |
| Variants                                   | Single-ended piston rod                          |
| Working pressure                           | 2 10 bar   |
| Mode of operation                          | single-acting                                    |
|  | pushing action                                   |
| Operating medium                           | Dried compressed air, lubricated or unlubricated |
| Corrosion resistance classification CRC    | 1  |
| Ambient temperature                        | 0 80 °C  |
| Theoretical force at 6 bar, advance stroke | 631 N  |
| Moving mass with 0 mm stroke               | 149.1 g  |
| Additional weight per 10 mm stroke         | 24 g   |
| Basic weight for 0 mm stroke               | 372 g  |
| Mounting type                              | with accessories                                 |
| Pneumatic connection                       | G1/8   |
| Materials note                             | Contains PWIS substances                         |
| Materials information for cover            | Wrought Aluminum alloy                           |
| Materials information for seals            | TPE-U(PU)  |
| Materials information, housing             | High alloy steel, non-corrosive                  |
| Materials information for piston rod       | High alloy steel                                 |
