

# Axial kit EAMM-A-P3-28D-40P

Part number: 1982886

FESTO

Suitable for electric drives.

## Data sheet

| Feature                          | Value            |
|----------------------------------|------------------|
| Assembly position                | Any              |
| PWIS conformity                  | VDMA24364-B2-L   |
| Storage temperature              | -25 ... 60 °C    |
| Relative air humidity            | 0 - 95 %         |
| Protection class                 | IP40             |
| Ambient temperature              | -10 ... 60 °C    |
| Transferable torque              | 0.2 Nm           |
| Product weight                   | 60 g             |
| Interface code, actuator         | P3-28D           |
| Interface code, motor in         | 40P              |
| Interface code, coupling housing | 28D              |
| Materials note                   | Conforms to RoHS |
