

# Swivel flange SSN-40

Part number: 34286

FESTO

With spherical bearing, for cylinders DNU, DKE.  
Discontinued, available through 2008

## Data sheet

| Feature                                 | Value                      |
|---|----------------------------|
| Size                                    | 40                         |
| Corrosion resistance classification CRC | 2                          |
| Product weight                          | 260 g                      |
| Material information, mounting          | Nodular graphite cast iron |
| Materials information for bearing       | PTFE<br>Steel              |
| Screw material data                     | Steel<br>Galvanized        |
