## Pinch valve VZQA-C-M22C-6-TT-V2V4E-4 Part number: 4748311

## **Data sheet**

| Feature                           | Value                                     |
|-----------------------------------|---|
| Design structure                  | Pneumatically actuated pinch valve        |
| Type of actuation                 | pneumatic                                 |
| Sealing principle                 | soft                                      |
| Assembly position                 | Any                                       |
| Mounting type                     | Line installation                         |
| Process valve connection          | 1/4 NPT                                   |
| Nominal diameter DN               | 6   |
| Valve function                    | 2/2 closed, monostable                    |
| Flow direction                    | reversible                                |
| Pressure of medium                | 0 0.4 MPa                                 |
| Medium pressure                   | 0 4 bar                                   |
| Pressure of medium psi            | 0 58 psi                                  |
| Operating pressure MPa            | 0.35 0.6 MPa                              |
| Working pressure                  | 3.5 6 bar                                 |
| Operating pressure                | 50.75 87 psi                              |
| Nominal pressure of process valve | 10  |
| Burst pressure                    | 1.6 MPa                                   |
| Bursting pressure                 | 16 bar                                    |
| Burst pressure                    | 232 psi                                   |
| Type of reset                     | mechanical spring                         |
| Type of piloting                  | With external control                     |
| Auxiliary pilot air port 12       | M3  |
| Pilot medium                      | Compressed air to ISO 8573-1:2010 [7:4:1] |
| Medium                            | Compressed air to ISO 8573-1:2010 [-:-:1] |
| Mediani                           | Water                                     |
| Max. viscosity                    | 4,000 mm2/s                               |
| Medium temperature                | -5 100 °C                                 |
| Ambient temperature               | -5 60 °C                                  |
| Storage temperature               | 5 20 °C                                   |
| Flow rate Kv                      | 0.7 m3/h                                  |
| Switching time on                 | 125 ms                                    |
| Switching time off                | 125 ms                                    |
| Materials note                    | Conforms to RoHS                          |
| PWIS conformity                   | VDMA24364 zone III                        |
| Material housing                  | High alloy steel, non-corrosive           |
| Material number for housing       | 1.4301                                    |
| Material housing cover            | High alloy steel, non-corrosive           |
| Material no. housing cover        | 1.4404 / AISI 316L                        |
| Material seals                    | FPM                                       |
| Material shut-off element         | EPDM                                      |
| Product weight                    | 253 g                                     |
| Food-safe                         | See Supplementary material information    |
| Material bowl                     | PPS                                       |
| ויומנפוומו שטשנ                   | Įrro                                      |
