

- Electrically or pneumatically actuated valves
- With internal or external pilot air
- Sturdy and reliable

Specified types in accordance with ATEX directive for potentially explosive atmospheres

➔ www.festo.com/en/ex

Solenoid/pneumatic valves, Tiger Classic

Key features

FESTO

General information

- Highly durable poppet valve concept for all 3/2 and 5/2-way valves
- Pneumatic or electrical actuation with F solenoid coil
- With flow rates of up to 7,500 l/min
- Pipe thread in sizes G1/8, G1/4, G1/2 and G3/4
- Tried and tested assembly on PAL or PRS manifold strips with hollow bolts
- Optimised response times with patented U-ring and servo control

Solenoid coils

F solenoid coils

Voltage:

- 12 to 230 V DC
- 12 to 240 V AC (50 to 60 Hz)

Power consumption:

- 4.5 W

- Selected types acc. to ATEX directive for explosive atmospheres

- Easily interchangeable solenoid coils
- Solenoid coil not included in scope of delivery

Variants

VL/O-3-...

Depending upon selected connections:

Normally closed or normally open

MFH-3-..., MOFH-3-...

- MFH-3-...
Normally closed
- MOFH-3-...
Normally open

These valves can be converted from one function to the other by rotating the seal under the cover.

MFH-3-...-S

This valve type can be used within a range of 0 to 8 bar and also as MOFH (through flow when not actuated) with a separate pilot line.

MFH-5-...-S

The external pilot air connection means that these valves can also be used with low operating pressures.

Solenoid/pneumatic valves, Tiger Classic

Key features

FESTO

Manifold mounting

With PAL manifold strip

With PRS manifold block

The Tiger Classic valves can be mounted on PAL manifold strips with common supply port or on PRS manifold blocks with common supply port and common exhausts. The valves are mounted on the strips and blocks with hollow bolts. The manifold strip and manifold block have 2 to 6 valve positions.

Vacant positions can be sealed on PAL manifold strips with blanking caps, or with blanking plates on PRS manifold blocks.

Separate pressure levels can be provided to individual valves by means of hollow bolts with threaded connection.

Mounting on manifold block

Mounting on manifold strip

Accessories		
	Brief description	→ Page/Internet
1	Push-in fitting QS	For connecting standard O.D. tubing quick star
2	Blanking plug G	3 included in the scope of delivery for PRS manifold block 1 included in the scope of delivery for PAL manifold strip g
3	Manifold block PRS	42
4	Manifold strip PAL	40
5	Silencer	For fitting in exhaust ports u
6	Pneumatic valve VL, JH	vl, jh
7	Blanking plate PRSB	For covering an unused valve position 43
8	Blanking cap VTM	For blanking an unused valve position 41
9	Hollow bolt VT	For distribution of compressed air or for separate compressed air supply 41

Pneumatic valves VL/O, Tiger Classic

FESTO

Technical data – 3/2-way valves

Flow rate

500 ... 7,500 l/min

Wearing parts kits

→ 32

General technical data				
Pneumatic connection	G1/8	G1/4	G1/2	G3/4
Valve function	3/2-way, single pilot			
Constructional design	Poppet valve			
Sealing principle	Soft			
Actuation type	Pneumatic			
Type of reset	Mechanical spring			
Type of pilot control	Direct			
Direction of flow	Reversible			
Exhaust function	With flow control			
Manual override	None			
Type of mounting	Via through holes			
Mounting position	Any			
Nominal size [mm]	5	7	14	19
Standard nominal flow rate	500	800	3,700	7,500
Product weight [g]	150	230	860	1,200

Operating and environmental conditions				
Pneumatic connection	G1/8	G1/4	G1/2	G3/4
Operating medium	Filtered compressed air, lubricated or unlubricated Vacuum			
Operating pressure	Normally closed [bar]	–0.95 ... +10	–0.95 ... +10	–0.95 ... +10
	Normally open [bar]	0 ... 10	0 ... 10	0 ... 10
Pilot pressure	See diagram (max. 10 bar)			
Ambient temperature [°C]	–10 ... +60			

Pneumatic valves VL/O, Tiger Classic

Product Range and Company Overview

A Complete Suite of Automation Services

Our experienced engineers provide complete support at every stage of your development process, including: conceptualization, analysis, engineering, design, assembly, documentation, validation, and production.

Custom Automation Components
Complete custom engineered solutions

Custom Control Cabinets
Comprehensive engineering support and on-site services

Complete Systems
Shipment, stocking and storage services

The Broadest Range of Automation Components

With a comprehensive line of more than 30,000 automation components, Festo is capable of solving the most complex automation requirements.

Electromechanical
Electromechanical actuators, motors, controllers & drives

Pneumatics
Pneumatic linear and rotary actuators, valves, and air supply

PLCs and I/O Devices
PLC's, operator interfaces, sensors and I/O devices

Supporting Advanced Automation... As No One Else Can!

Festo is a leading global manufacturer of pneumatic and electromechanical systems, components and controls for industrial automation, with more than 12,000 employees in 56 national headquarters serving more than 180 countries. For more than 80 years, Festo has continuously elevated the state of manufacturing with innovations and optimized motion control solutions that deliver higher performing, more profitable automated manufacturing and processing equipment. Our dedication to the advancement of automation extends beyond technology to the education and development of current and future automation and robotics designers with simulation tools, teaching programs, and on-site services.

Quality Assurance, ISO 9001 and ISO 14001 Certifications

Festo Corporation is committed to supply all Festo products and services that will meet or exceed our customers' requirements in product quality, delivery, customer service and satisfaction.

To meet this commitment, we strive to ensure a consistent, integrated, and systematic approach to management that will meet or exceed the requirements of the ISO 9001 standard for Quality Management and the ISO 14001 standard for Environmental Management.
