Modular controllers CECX

FESTO

Modular controllers CECX

Key features

At a glance

Versatile

The controller is functionally designed as a master and motion controller. It is a powerful control unit that can simultaneously execute both comprehensive PLC functions and multi-axis movements with interpolation.

Economical

The modular structure offers the right solutions for all requirements. It has a high component density, is easy to use and can be mounted on H-rails. It is fully compatible with all products from Festo and other manufacturers.

Controlling electric axes

Simple commissioning, programming and servicing:
With the SoftMotion module, the CoDeSys software offers a powerful programming environment for controlling all electric axes with CANopen fieldbus connection. Additionally available: module libraries, configuration tools and drivers.

Flexible

Programming to the IEC 61131-3 standard means the CECX is flexible and open for all types of control tasks. Numerous communication modules (PROFIBUS, CANopen, Ethernet) guarantee compatibility with other systems.

Reliable

It is certified to CE, UL/CSA, produced based on global experience in front end automation and uses standard hardware and CoDeSys standard software.

Product features

- Two product versions
  - Modular master controller with CoDeSys
  - Motion controller with CoDeSys and SoftMotion
- Easy configuration
- Automatic module detection
- Search function for finding controllers in the network
- DHCP-compatible
- Automatic transfer of the communication settings to the project

Module selection

CPU unit

- Power PC 400 MHz
- Ethernet interface
- CAN-Bus interface
- RS 485 interface
- USB interface
- Compact Flash card as removable storage
- Slots for optional modules

Optional modules

The controller CECX-X can be extended with the following optional modules:

- Ethernet interface
- CAN interface
- RS 232 serial interface
- RS 485-A/422-A serial interface

Input/output modules

- Digital modules
- Analogue modules for current and voltage
- Temperature input modules
- Encoder counter modules

Communication modules

- PROFIBUS master DP-V1
- PROFIBUS slave DP-V0
- PROFIBUS slave DP-V1
- 2x RS 232 serial interface

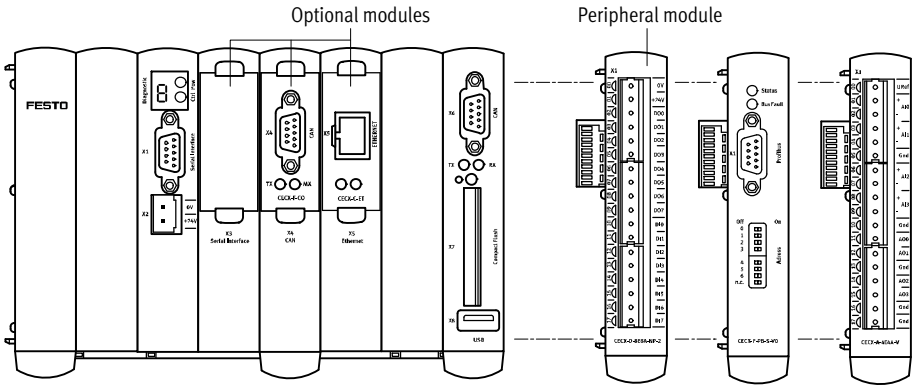
Actuating electric axes from Festo via CANopen interface

- Motor controllers CMMP-AS for servo motors
- Motor controller CMMS-ST for stepper motors
- Motor controllers SFC-DC and SFC-LAC
- Motor unit MTR-DCI

Modular controllers CECX

Key features

Controller CECX with peripheral modules and optional modules



Type	Description	➔ Page/Internet
Peripheral modules		
Input/output module, digital CECX-D-...E8A	• 6 or 8 digital inputs • 8 digital outputs	9
Input/output module, analogue CECX-A-4E4A-V	• 4 analogue voltage inputs • 4 analogue voltage outputs	11
Input/output module, analogue CECX-A-4E4A-A	• 4 analogue current inputs • 4 analogue current outputs	11
Input module, digital CECX-D-16E	• 16 digital inputs	14
Input module, analogue CECX-A-4E-V	• 4 analogue voltage inputs	16
Output module, digital CECX-D-14A-2	• 14 digital outputs	18
Output module, analogue CECX-A-4A-V	• 4 analogue voltage outputs	20
Input module, analogue CECX-E-...E-T-P...	• 4 or 6 temperature inputs	22
Encoder interface CECX-C-2G2/-2G1	• 2 encoder inputs/4 encoder inputs SSI (RS 422)	25
Bus interface CECX-F-PB-S-V...	• PROFIBUS slave DP-V0 • PROFIBUS slave DP-V1	28
Bus interface CECX-F-PB-V1	• PROFIBUS master DP-V1	30
Bus interface CECX-B-CO	• Connection via CAN bus to the modular controller • For connecting decentralised peripheral modules in series	32
Electrical interface CECX-C-2S1	• 2 RS 232 serial interfaces	34
Optional modules		
Bus interface CECX-F-CO	• CAN interface	36
Electrical interface CECX-C-ET	• Ethernet interface	38
Electrical interface CECX-C-S1	• RS 232 serial interface	40
Electrical interface CECX-S-S4	• RS 485-A/422-A serial interface	40

- Note

Max. 12 peripheral modules can be mounted.

Modular controllers CECX

Technical data

Controller CECX-X-C1
Modular master controller
with CoDeSys

Controller CECX-X-M1
Motion controller with CoDeSys
and SoftMotion

The controller is the central module in the modular control unit. It provides the resources for executing the application software.
The controller has three plug-in slots for optional modules to effect the following connections for interfaces:

- CAN bus interface
- Ethernet electrical interface
- RS 232 serial interface

The controller is equipped with the optional module for the Ethernet electrical interface by default.

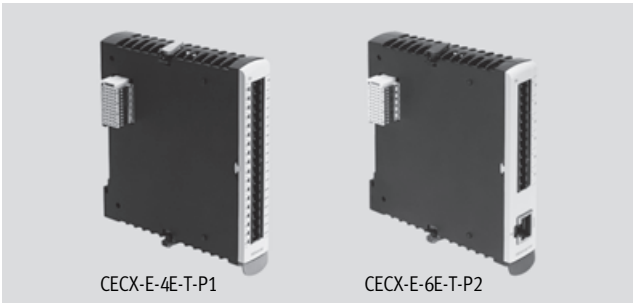
Output module, analogue		Part No.	Type
	With 4 analogue voltage outputs	**553976**	**CECX-A-4A-V**

Note

Accompanying manuals in German and English can be found on the CD-ROM supplied with the controller CECX-X.

Input module, analogue
CECX-E-4E-T-P1
There are 4 temperature inputs available for the temperature sensor PT 100.
The following function is available:
- 2-wire and 4-wire connection

Input module, analogue
CECX-E-6E-T-P2
There are 6 temperature inputs available for the thermoelement type J, K and L.
The following function is available:
- Internal and external cold junction compensation



CECX-E-4E-T-P1 CECX-E-6E-T-P2

General technical data			
		CECX-E-4E-T-P1	CECX-E-6E-T-P2
Electrical connection technology for I/O		Socket strip, grid 5.08 mm	
		–	Gold contacts
Power consumption at 5 V	[W]	0.3	0.6
Power consumption at 24 V	[W]	2.5	1.6
Resistance to shock		EN 60068-2-27 EA	
		15 g, 11 ms (half sine)	
Resistance to vibration		EN 60068-2-6-FC	
		5 … 9 Hz, 3.5 mm	
		9 … 150 Hz, 1g	
Protection class		IP20	
Electrical protection class		III	
Product weight	[g]	134	142
Materials			
Note on materials		Contains PWIS (paint-wetting impairment substances)	
		RoHS-compliant

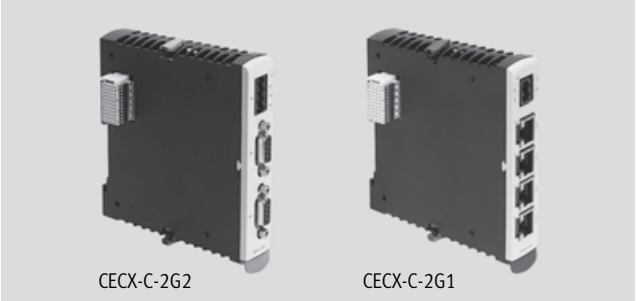
Encoder interface
CECX-C-2G2
The following functions are available:
- Displacement measurement: incremental/decremental counter (displacement measurement) using A and B track, 1-way, 2-way, 4-way evaluation, 32-bit resolution
- Pulse counter on track A, 32-bit resolution
- Pulse counter on track A with direction evaluation for track B, 32-bit resolution
- Speed measurement by means of sampling with internal time basis
- Shaft encoder monitoring using zero-track information
- Counter reading latch function via an external latch input
- Counter reading latch function via zero pulse
- Sensor rupture monitoring for tracks A, B and zero

Encoder interface
CECX-C-2G1
The following function is available:
- Power/receive status display
- Binary/grey signal range



CECX-C-2G2 CECX-C-2G1

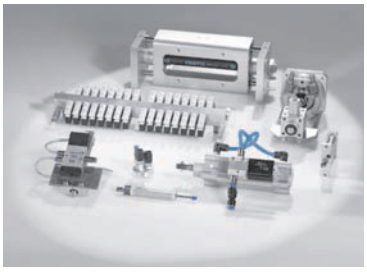
Product Range and Company Overview

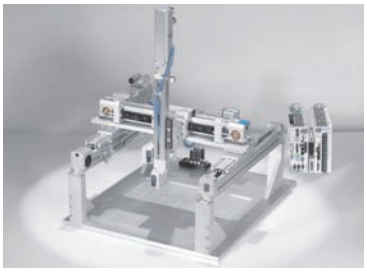
A Complete Suite and Company Overview

Our experienced engineers provide complete support at every stage of your development process, including: conceptualization, analysis, engineering, design, assembly, documentation, validation, and production.



Custom Automation Components
Complete custom engineered solutions

Custom Control Cabinets
Comprehensive engineering support and on-site services



Complete Systems
Shipment, stocking and storage services

The Broadest Range of Automation Components

With a comprehensive line of more than 30,000 automation components, Festo is capable of solving the most complex automation requirements.

Electromechanical
Electromechanical actuators, motors, controllers & drivers

Pneumatics
Pneumatic linear and rotary actuators, valves, and air supply

PLCs and I/O Devices
PLC's, operator interfaces, sensors and I/O devices

Supporting Advanced Automation... As No One Else Can!
Festo is a leading global manufacturer of pneumatic and electromechanical systems, components and controls for industrial automation, with more than 16,000 employees in 60 national headquarters serving more than 180 countries. For more than 80 years, Festo has continuously elevated the state of manufacturing with innovations and optimized motion control solutions that deliver higher performing, more profitable automated manufacturing and processing equipment. Our dedication to the advancement of automation extends beyond technology to the education and development of current and future automation and robotics designers with simulation tools, teaching programs, and on-site services.

Quality Assurance, ISO 9001 and ISO 14001 Certifications
Festo Corporation is committed to supply all Festo products and services that will meet or exceed our customers' requirements in product quality, delivery, customer service and satisfaction.

To meet this commitment, we strive to ensure a consistent, integrated, and systematic approach to management that will meet or exceed the requirements of the ISO 9001 standard for Quality Management and the ISO 14001 standard for Environmental Management.
