

Proportional directional control valves MPYE

FESTO

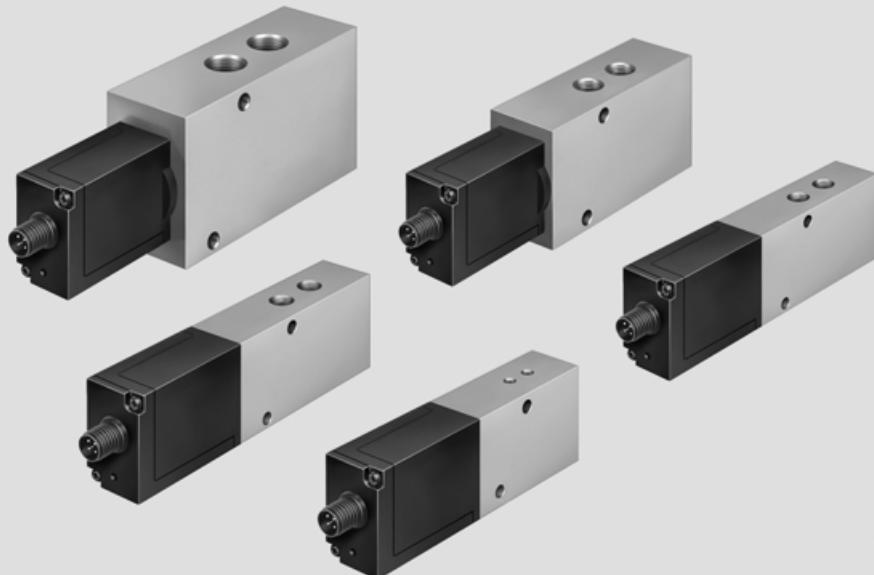

- High dynamics
- Final control element for closed control loops
- 5/3 –way function

Proportional directional control valves MPYE

Key features

FESTO

General information

- The directly actuated proportional directional control valve has a position-controlled spool. This transforms an analogue input signal into a corresponding opening cross-section at the valve outputs.
- In combination with an external position controller and displacement encoder, a precise pneumatic positioning system can be created.
- Flow control function for varying cylinder speed
- 5/3-way function for varying the direction of movement

Wide choice of variants

- Setpoint value input
 - Analogue voltage signal
 - Analogue current signal
- Flow rates from 100 ... 2000 l/min

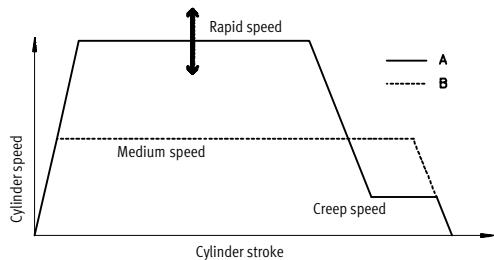

Proportional directional control valves MPYE

FESTO

Key features and type codes

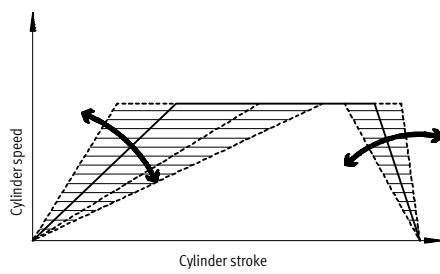

Short machine cycle times – fast switching of programmed flow rates

- Reduce machine cycle times by optimising cylinder speeds
 - Assembly technology
 - Handling technology
 - Furniture industry
- A: Proportional valves allow different speed levels and speed ramps to be set.
- B: Speed regulation with directional control valves is more difficult and is performed by means of exhaust air flow control.

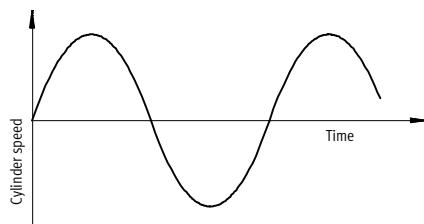

Flexible cylinder speeds – Achieving variable flow rates

- Flexibly adapting cylinder speeds to the process. Traversing individual acceleration ramps (gentle approach with delicate goods)
 - Automobile suppliers
 - Production technology
 - Conveyor technology
 - Test engineering

Proportional directional control valve as final control element – Dynamic and fast changing of flow rates

- Fatigue tests
- SoftStop with end-position controller SPC11

Technical data

Function

Variants

- Setpoint value input as analogue voltage signal 0 ... 10 V
- Setpoint value input as analogue current signal 4 ... 20 mA

- - Voltage
17 ... 30 V DC

- - Flow rate
100 ... 2000 l/min

- - Pressure
0 ... 10 bar

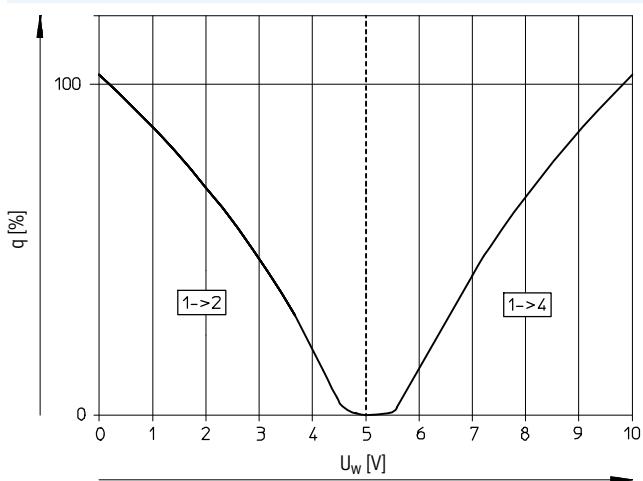

General technical data

Pneumatic connection	M5	G1/8	G1/4	G3/8
		Low flow	High flow	
Valve function	5/3-way, normally closed			
Constructional design	Piston spool, directly actuated, controlled piston spool position			
Sealing principle	Hard			
Actuation type	Electrical			
Type of reset	Mechanical spring			
Type of pilot control	Direct			
Direction of flow	Non-reversible			
Type of mounting	Via through-holes			
Mounting position ¹⁾	Any			
Nominal size [mm]	2	4	6	8
Standard nominal flow rate [l/min]	100	350	700	1400
Product weight [g]	290	330	330	530
				740

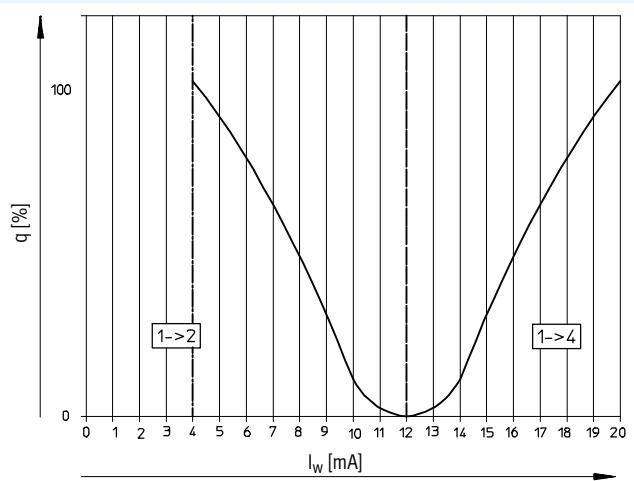

1) If the proportional directional control valve is in motion during operation, it must be mounted at right angles to the direction of movement.

Flow rate q at 6 → 5 bar as a function of the setpoint voltage U_w

Voltage type MPYE-5-...-010-B

Current type MPYE-5-...-420-B

Proportional directional control valves MPYE

Technical data

FESTO

Electrical data		M5	G1/8 Low flow	High flow	G1/4	G3/8	
Pneumatic connection							
Power supply	[V DC]	17 ... 30					
Max. current consumption	in mid-position [mA]	100					
	at full stroke [mA]	1 100					
Setpoint value	Voltage type [V DC]	0 ... 10					
	Current type [mA]	4 ... 20					
Max. hysteresis ¹⁾	[%]	0.4					
Valve mid-position	Voltage type [V DC]	5 (± 0.1)					
	Current type [mA]	12 (± 0.16)					
Duty cycle ²⁾	[%]	100					
Critical frequency ³⁾	[Hz]	125	100	100	90	65	
Safety setting	Active mid-position in the event of setpoint value cable break						
Protection against polarity reversal	Voltage type	For all electrical connections					
	Current type	For setpoint value					
Protection class	IP65						
Electrical connection	4-pin plug socket, round design, M12x1						

1) Referred to the maximum stroke of the piston spool.

2) The proportional direction control valve automatically switches off if it overheats (goes to mid-position) and switches back on once it cools down.

3) Corresponds to the 3dB frequency at the maximum movement stroke of the piston spool.

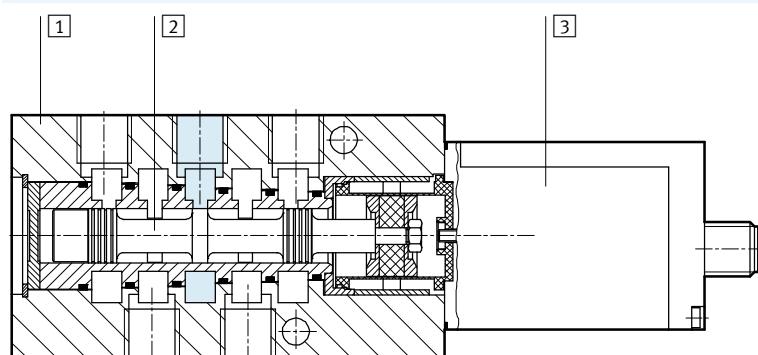

Operating and environmental conditions

Operating pressure [bar]	0 ... 10
Operating medium	Compressed air in accordance with ISO 8573-1:2010 [6:4:4]
Note on operating/pilot medium	Operation with lubricated medium not possible
Ambient temperature [°C]	0 ... 50
Vibration resistance ¹⁾	To DIN/IEC 68 Parts 2 -6, severity level 2
Continuous shock resistance ¹⁾	To DIN/IEC 68 Parts 2 -27, severity level 2
CE symbol	To 89/336/EEC (EMC regulation)
Temperature of medium [°C]	5 ... 40, condensation not permitted

1) If the proportional directional control valve is in motion during operation, it must be mounted at right angles to the direction of movement.

Materials

Sectional view

[1] Housing	Anodised aluminium
[2] Valve spool	Tempered aluminium
[3] Housing for electronics	Galvanised acrylic butadiene styrene
- Seals	Nitrile rubber

Product Range and Company Overview

A Complete Suite and Company Overview

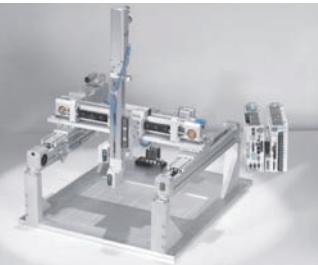

Our experienced engineers provide complete support at every stage of your development process, including: conceptualization, analysis, engineering, design, assembly, documentation, validation, and production.

Custom Automation Components
Complete custom engineered solutions

Custom Control Cabinets
Comprehensive engineering support and on-site services

Complete Systems
Shipment, stocking and storage services

The Broadest Range of Automation Components

With a comprehensive line of more than 30,000 automation components, Festo is capable of solving the most complex automation requirements.

Electromechanical
Electromechanical actuators, motors, controllers & drivers

Pneumatics
Pneumatic linear and rotary actuators, valves, and air supply

PLCs and I/O Devices
PLC's, operator interfaces, sensors and I/O devices

Supporting Advanced Automation... As No One Else Can!

Festo is a leading global manufacturer of pneumatic and electromechanical systems, components and controls for industrial automation, with more than 16,000 employees in 60 national headquarters serving more than 180 countries. For more than 80 years, Festo has continuously elevated the state of manufacturing with innovations and optimized motion control solutions that deliver higher performing, more profitable automated manufacturing and processing equipment. Our dedication to the advancement of automation extends beyond technology to the education and development of current and future automation and robotics designers with simulation tools, teaching programs, and on-site services.

Quality Assurance, ISO 9001 and ISO 14001 Certifications

Festo Corporation is committed to supply all Festo products and services that will meet or exceed our customers' requirements in product quality, delivery, customer service and satisfaction.

To meet this commitment, we strive to ensure a consistent, integrated, and systematic approach to management that will meet or exceed the requirements of the ISO 9001 standard for Quality Management and the ISO 14001 standard for Environmental Management.
