

Valves, mechanically actuated

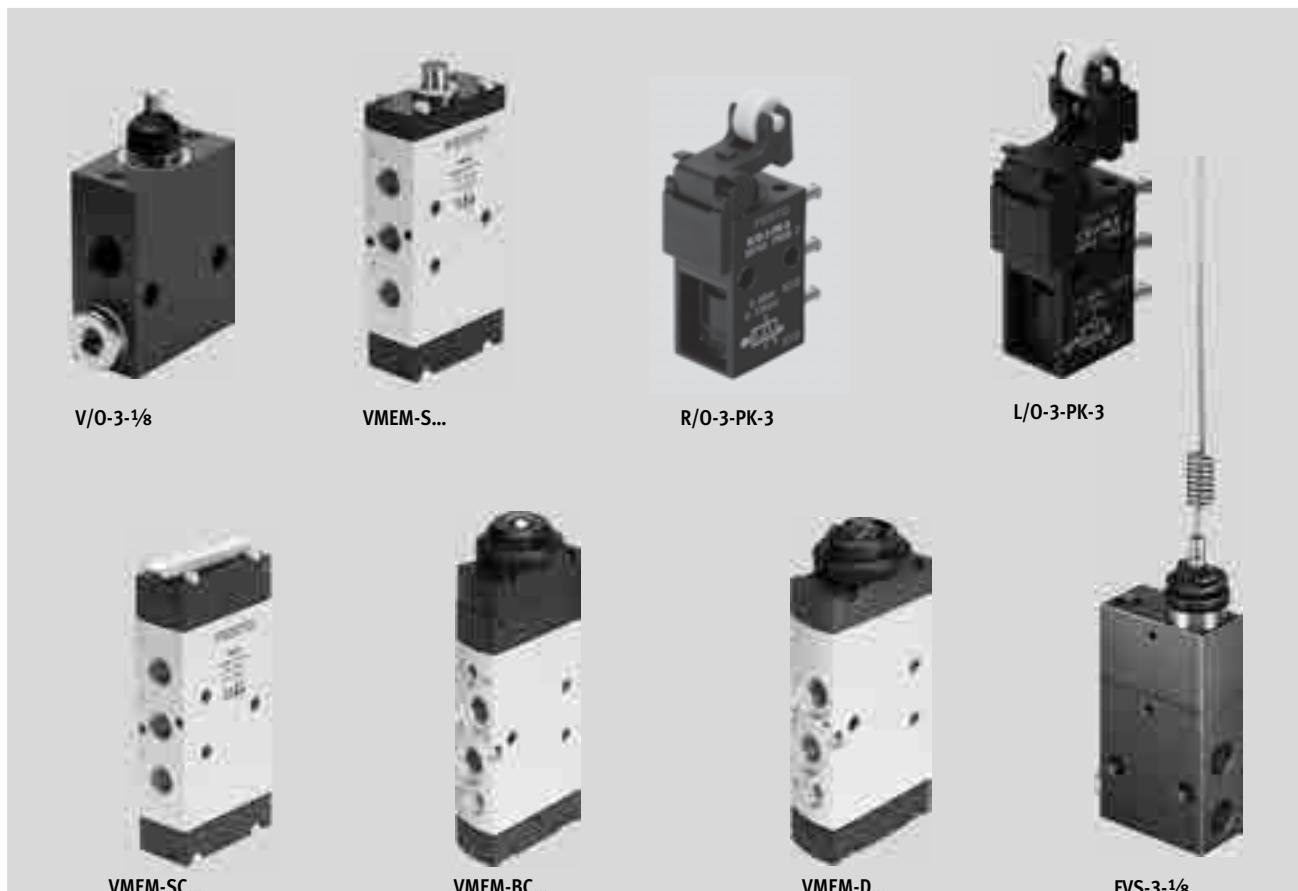

FESTO

Valves, mechanically actuated

Key features

FESTO

Innovative

- Small and compact for a wide range of pneumatic applications
- Large selection of valve functions; 3/2-way, 4/2-way and 5/2-way functions
- With flow rates of up to 1,000 l/min, valves VMEM offer outstanding pneumatic performance for a great variety of applications
- Low weight
- Minimal actuating forces

Versatile

- Flexibility of the pneumatic working ports provides a practical solution to different requirements
- Round silencer for ducted exhaust air
- Suitable for vacuum in some cases
- Reverse operation possible in some cases
- Actuation: direct and piloted
- Pressure range from vacuum to 10 bar possible
- Version:
 - Stem actuated valve
 - Swivel lever valve
 - Roller lever valve, toggle lever valve
 - Whisker valve
 - Roller actuated valve
 - Ball actuated valve

Reliable

- Durable thanks to proven piston spool and piston poppet valves
- Sturdy thanks to metal or plastic housing and connecting thread or connector

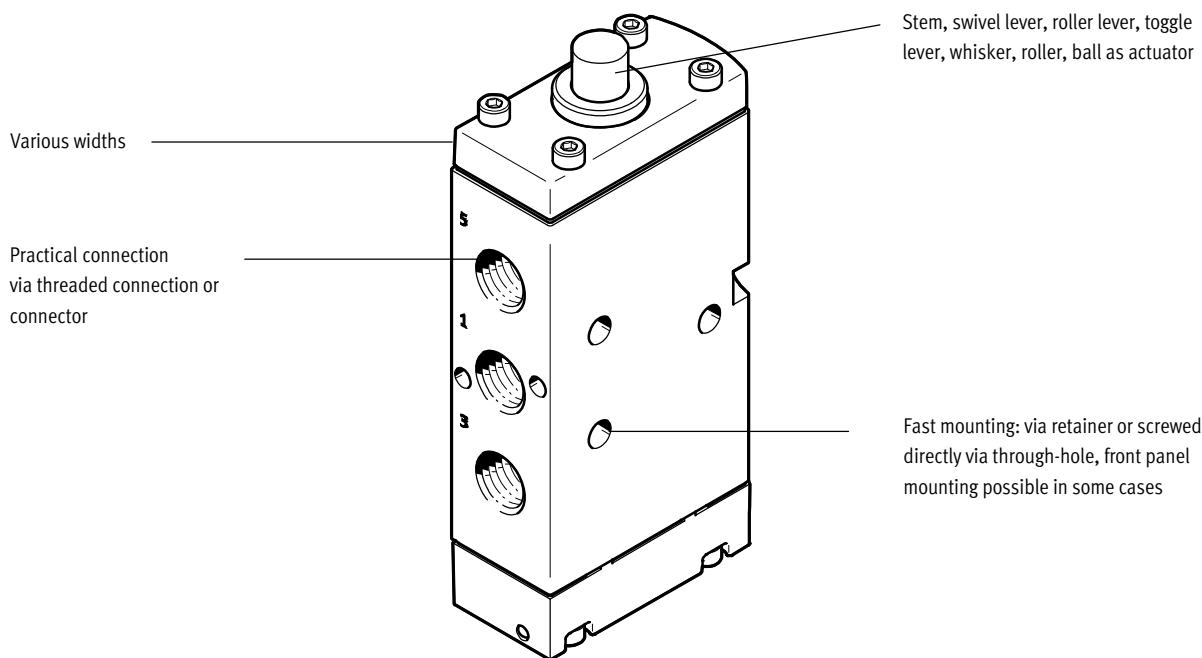

Easy to mount

- Front panel mounting or mounting on bracket

Valves, mechanically actuated

FESTO

Key features

Equipment options

3/2-way valve, monostable

- Normally open/closed
- Mechanical spring
- Vacuum operation possible
- Directly actuated and pneumatically piloted
- Ducted exhaust air

4/2-way valve, monostable

- Mechanical spring
- Pneumatically piloted
- Ducted exhaust air

5/2-way valve, monostable

- Pneumatic spring/mechanical spring
- Vacuum operation possible

- Reverse operation in some cases
- Pneumatically piloted
- Ducted exhaust air

Valve selection

You order mechanically and manually operated valves using the order code:

Mechanically actuated valves

Mechanically actuated valves are often used as "signal valves" and feed back a pneumatic signal to the controller. This feedback, e.g. "End position reached", is realised via a stem actuated valve or roller actuated

valve.

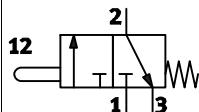

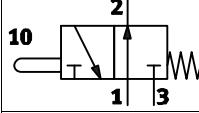

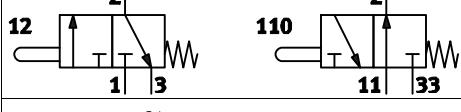

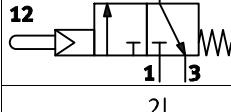

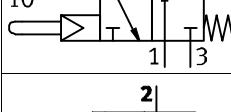

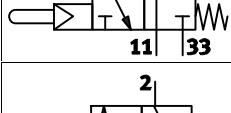

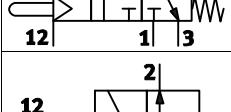

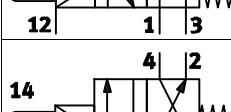

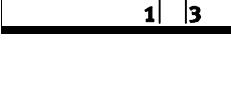

This is a simple application, but it is an extremely popular solution for smaller machines and conveying systems, e.g. for controlling simple clamping and locking operations in

semi-automated assembly and production. The modern design with metal housing combines sturdiness and functionality.

Advantages of mechanically actuated valves:

- No electronic controller required
- No programming effort required
- Easy to adjust and connect
- Control and measurement via sensors

	VMEM-BCZ-M52-E	5/2-way valve, monostable • Pneumatic spring return • Pneumatically piloted, external pilot air • Suitable for vacuum • Reverse operation possible

Note

A filter must be installed upstream of valves operated in vacuum mode. This prevents any foreign matter in the intake air getting into the valve (e.g. when operating a suction cup).

Temperature of medium [°C]	-10 ... +60
Ambient temperature [°C]	-10 ... +60

Whisker valves

Technical data

FESTO

Switching forces F and switching travel l at 6 bar as a function of approach distance L

Whisker valve

This piloted valve with extremely low actuating forces is particularly suited for systems where dissimilar parts or actuating elements without precision positioning are to be sensed, or where the actuating levels are different. The whisker can be approached from any direction perpendicular to the whisker axis, or can be passed.

- [1] Switching force
- [2] Passing force
- [3] Switching travel
- [4] Overtravel
- [5] Permissible approach range

Example:

A distance of 30 mm from the end of the spring results in:

Switching travel 54 mm
Switching force 0.57 N

Overtravel 88 mm
Passing force 0.75 N

Actuating force [N]	90 ¹⁾ 130	27.5 ²⁾ 41
Max. actuating force [N]	80	150
Max. lateral force [N]	30	30

1) Value 90 with normally closed valve, value 130 with normally open valve

2) Value 27.5 with mechanical spring reset method, value 41 with pneumatic spring reset method

Materials	
Cover	PA
Seal	NBR
Housing	Anodised wrought aluminium alloy
Note on materials	RoHS-compliant

Operating and environmental conditions			
Type	VMEM-DT	VMEM-D	
Operating medium	Compressed air to ISO 8573-1:2010 [7:-:-]		
Note on operating/ pilot medium [µm]	Lubricated operation possible (required during subsequent operation)		
Operating pressure range [bar]	-0.95 ... 8	-0.95 ... 10 ¹⁾	2.5 ... 10 ²⁾
Pilot pressure [bar]	–	2.5 ... 10 ³⁾	
Temperature of medium [°C]	-10 ... +60		
Ambient temperature [°C]	-10 ... +60		
Corrosion resistance class CRC ⁴⁾	2		

1) Suitable for vacuum, mechanical spring or external pneumatic spring reset method (in the type codes Reset method M: Mechanical spring or E: External pneumatic spring)

2) Not suitable for vacuum, internal pneumatic spring reset method (in the type codes Reset method A: Internal pneumatic spring)

3) With VMEM-D ... E ...

4) Corrosion resistance class CRC 2 to Festo standard FN 940070

Moderate corrosion stress. Indoor applications in which condensation may occur. External visible parts with primarily decorative requirements for the surface and which are in direct contact with the ambient atmosphere typical for industrial applications.

Product Range and Company Overview

A Complete Suite and Company Overview

Our experienced engineers provide complete support at every stage of your development process, including: conceptualization, analysis, engineering, design, assembly, documentation, validation, and production.

Custom Automation Components
Complete custom engineered solutions

Custom Control Cabinets
Comprehensive engineering support and on-site services

Complete Systems
Shipment, stocking and storage services

The Broadest Range of Automation Components

With a comprehensive line of more than 30,000 automation components, Festo is capable of solving the most complex automation requirements.

Electromechanical
Electromechanical actuators, motors, controllers & drivers

Pneumatics
Pneumatic linear and rotary actuators, valves, and air supply

PLCs and I/O Devices
PLC's, operator interfaces, sensors and I/O devices

Supporting Advanced Automation... As No One Else Can!

Festo is a leading global manufacturer of pneumatic and electromechanical systems, components and controls for industrial automation, with more than 16,000 employees in 60 national headquarters serving more than 180 countries. For more than 80 years, Festo has continuously elevated the state of manufacturing with innovations and optimized motion control solutions that deliver higher performing, more profitable automated manufacturing and processing equipment. Our dedication to the advancement of automation extends beyond technology to the education and development of current and future automation and robotics designers with simulation tools, teaching programs, and on-site services.

Quality Assurance, ISO 9001 and ISO 14001 Certifications

Festo Corporation is committed to supply all Festo products and services that will meet or exceed our customers' requirements in product quality, delivery, customer service and satisfaction.

To meet this commitment, we strive to ensure a consistent, integrated, and systematic approach to management that will meet or exceed the requirements of the ISO 9001 standard for Quality Management and the ISO 14001 standard for Environmental Management.
