

Fitting NPCK

FESTO

Characteristics

At a glance

Stainless steel fitting for use in areas subject to intensive cleaning.

- Maximum corrosion resistance CRC4
- Suitable plastic tubing: PAN, PFAN, PFTEN, PEN, PLN, PUN-H, PUN-H-DUO, PUN-H-F

Product version

[C] Easy-to-clean design

Fulfils all clean design requirements

Design

[D] Straight

Pneumatic connection 1

The screwed plug is screwed onto the counterpart with the sealing ring and tightened according to the nominal tightening torque.

Pneumatic connection 2

Screw the union nut into the screwed plug until there is resistance from the counterpart. The tubing is attached and the sealing ring is pressed between the sealing surface, the screwed plug and the union nut.
