

Characteristics

At a glance

High-efficiency filter for special requirements.

- Air quality to ISO 8573-1:2010
- Available as pre-assembled filter combination
- Optionally with differential pressure display for indicating filter contamination.
- Filter inserts optionally with 1 µm or 0.01 µm
- Choice of filter inserts 5 µm or 40 µm

Version

[D] D series, metal

Sturdy in full metal design for the specific requirements of the process automation industry

Filter change sensing

Optionally with differential pressure display for indicating filter contamination.

[] None

[DA] Differential pressure display, visual

Condensate drain

Optionally with manual or fully automatic condensate drain

[] Manually rotating

[A] Fully automatic
