

Air gap sensor SOPA

Characteristics

At a glance

- Communication interface IO-Link®
- Operating pressure 4... 7 bar
- Detection range 20... 200 µm
- Analogue output 1... 5 V, 0... 10 V or 4... 20 mA
- Switching outputs 2x PNP, 2x NPN, PNP/NPN switchable
- 2-colour LCD display
- Integrated blow-out function
- Teachable distance threshold values
- Sensing of the entire distance value via IO-Link or analogue output

General information:

- Lightweight, compact and highly precise, this pneumatic solution is particularly impressive thanks to its integrative capabilities: SOPA is equipped with a controller module, compressed air control, measuring air shut-off and blow-off function, as well as up to 4 measuring modules. In summary: the attractively priced solution for minimal tolerances.

Precise:

- The air gap sensor SOPA senses exactly in the µm range whether the workpiece is lying flat or resting against the work surface before clamping and whether the machining tool is exactly aligned with the spindle. The solution for two-stage workpiece machining with different surface qualities. Alternatively, the distance value can be transmitted to the controller via IO-Link or the analogue output. Parameters can therefore be changed even when the system is running. This means, for example, that it is easy and straightforward to adjust the switching points when workpieces change during the process.

Easy to operate:

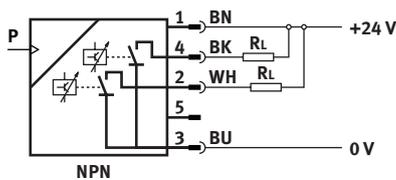

- Lightweight, compact and easy to use: Through parameterisation with IO-Link, teach-in or numerical setting with 3-button operation. Extremely simple installation and commissioning thanks to virtually unregulated compressed air included, as well as the integrated blow-off function without additional peripherals. All settings that have been carried out on one IO-Link measuring module (master) can be transferred (replication) to identical measuring modules (device).

Safe and flexible:

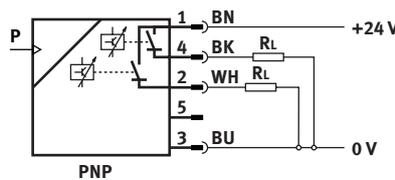

- The multicolour LCD display ensures maximum safety by clearly visualising the operating status. The selectable measuring points 1... 4 and other functions make the application highly flexible. In the menu, a four-digit security code can be chosen and freely configured. This prevents unauthorised changes to device parameters.

Electrical output 1

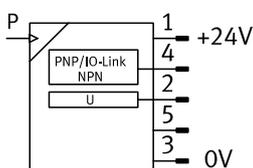

[2N] 2x NPN

[2P] 2x PNP

[PNLK] PNP/NPN/IO-Link

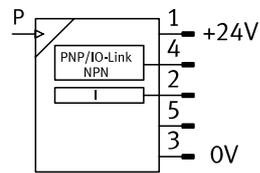

Characteristics

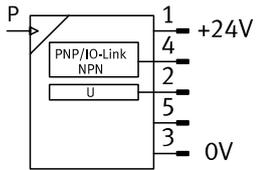

Electrical output 2

[L] None

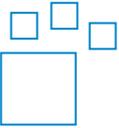

[A] 4 ... 20 mA

[VB] 0 ... 10 V or 1 ... 5 V

Ordering data - modular system

Configurable product

This product and all its product options can be ordered online via the configurator.

Type code

001	Series	
SOPA	Air gap sensor for contact and distance monitoring with LCD display	

002	Modules	
CM1	Control module with a sensor module	
CM2	Control module with two sensor modules, pneumatically linked	
CM3	Control module with three sensor modules, pneumatically linked	
CM4	Control module with four sensor modules, pneumatically linked	
M1	Sensor module	

003	Manual override control module	
	None	
H	With	

004	Sensing range	
R1	20 ... 200 µm	

005	Type of mounting	
H	H-rail mounting	
W	Wall mounting	

006	Pneumatic connection	
Q6	Push-in connector 6 mm	

007	Electrical output 1	
2N	2x NPN	
2P	2x PNP	
PNLK	PNP/NPN/IO-Link	

008	Electrical output 2	
	None	
A	4 ... 20 mA	
VB	0 ... 10 V or 1 ... 5 V	

009	Electrical connection	
M12	Plug M12, A-coded	

010	Electrical accessories	
	None	
E1	Straight socket, cable 2.5 m	
E2	Straight socket, cable 5 m	
E3	Angled socket, cable 2.5 m	
E4	Angled socket, cable 5 m	

Datasheet

General technical data

Approval	RCM trademark, c UL us - Recognized (OL)
CE mark (see declaration of conformity)	To EU EMC Directive, In accordance with EU RoHS Directive
UKCA marking (see declaration of conformity)	To UK instructions for EMC, To UK RoHS instructions
KC mark	KC-EMV
Note on materials	RoHS-compliant

Input signal, measuring element

Measuring principle	Pneumatic
Detected variable	Distance
Sensing range	20 ... 200 µm
Operating pressure	4 ... 7 bar
Supply pressure	0.8 ... 1.6 bar
Operating medium	Compressed air to ISO 8573-1:2010 [7:4:4]
Note on operating and pilot medium	Lubricated operation possible (in which case lubricated operation will always be required)
Ambient temperature	0 ... 50°C

General output

Repetition accuracy in ± µm	2.5 µm
-----------------------------	--------

Switching output

Switching output	2xNPN, 2xPNP
Switching function	Window comparator, Threshold value with variable hysteresis
Switching element function	N/C or N/O contact, switchable
Max. output current	100 mA

Analogue output

Analogue output ¹⁾	0 - 10 V	4 - 20 mA
Starting value of distance characteristic	0 µm	
End value of distance characteristic	300 µm	
Rise time	22 ms	
Max. load resistance current output	–	500 Ohm
Min. load resistance voltage output	20 kOhm	–

1) The analogue output can be switched from 1 to 5 V.

Output, additional data

Short circuit current rating	yes
------------------------------	-----

Datasheet

Communication interface

Protocol	IO-Link®
IO-Link, Protocol version	Device V 1.1
IO-Link, Profile	Smart sensor profile
IO-Link, Function classes	Process data variable (PDV), Identification, Diagnostics, Teach channel, Switching signal channel (SSC)
IO-Link, communication mode	COM2 (38.4 kBaud)
IO-Link, SIO-Mode support	Yes
IO-Link, Port class	A
IO-Link, Process data length IN	2 bytes
IO-Link, Process data length OUT	0 bytes
IO-Link, Process data content IN	1-bit SSC (supply pressure monitoring), 10-bit PDV (distance), 2-bit SSC (distance monitoring)
IO-Link, Service data IN	14-bit supply pressure
IO-Link, Min. cycle time	3 ms
IO-Link, Data storage required	0.5

Electronics

Electrical output 1	2x NPN [2N]	2x PNP [2P]	PNP/NPN/IO-Link [PNLK]
Electrical output 2	None []		4 ... 20 mA [A] 0 ... 10 V or 1 ... 5 V [VB]
Operational voltage range DC	15 ... 30 V		20 ... 30 V
Max. current consumption	250 mA	170 mA	150 mA
Reverse polarity protection	For all electrical connections		

Electronics

Electrical output 1	2x NPN [2N]	2x PNP [2P]	PNP/NPN/IO-Link [PNLK]
Operational voltage range DC	22.8 ... 26.4 V		
Max. current consumption	350 ... 1,100 mA		250 ... 780 mA
Reverse polarity protection	For all electrical connections		

Electromechanics

Electrical connection 1, connection type	Plugs
Electrical connection 1, connector system	M12x1, A-coded to EN 61076-2-101
Electrical connection 1, number of connections/cores	5
Electrical connection 1, type of mounting	Screw-type lock, Not rotatable
Electrical connection 1, compatible type of mounting	Compatible with rotatable screw-type lock

Mechanical components

Type of mounting	Either., With through-hole, With H-rail, Via wall/surface bracket	Either., With through-hole, With H-rail
Pneumatic connection	QS-6	
Product weight	510 g, 570 g, 630 g, 690 g	60 g, 510 g, 570 g, 630 g, 690 g
Material housing	Anodised aluminium, PA-reinforced	

Display, operation

Display type	Illuminated LCD, multi-colour
Setting options	IO-Link®, Teach-in, Via display and keys
Protection against tampering	Electronic interlock

Datasheet

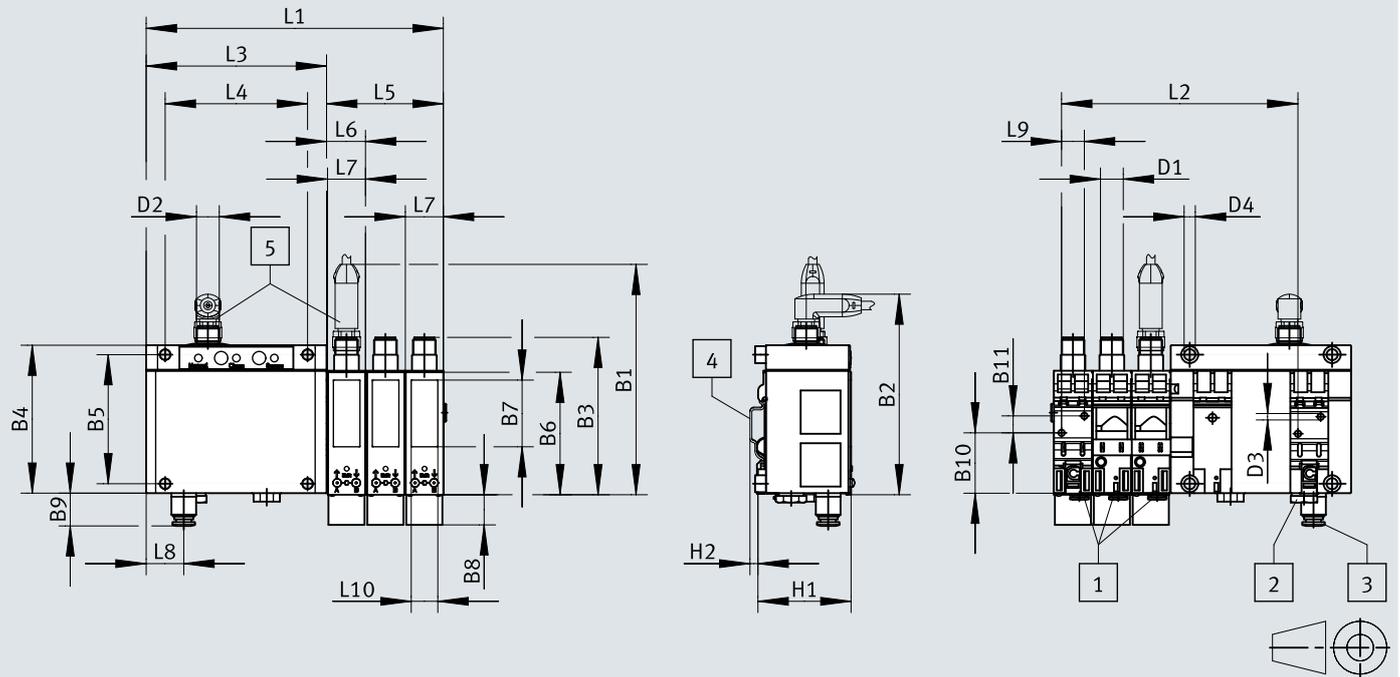

Immission, emission	
Degree of protection	IP65
LABS (PWIS) conformity	VDMA24364-C1-L
Corrosion resistance class CRC ¹⁾	2 - Moderate corrosion stress
