

## Branching module MS6-FRM

**FESTO**

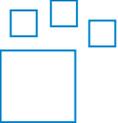

## Characteristics

### At a glance

- Grid dimension: 62 mm
- Outlet at top and bottom
- Support for additional modules
- Optionally with integrated non-return function and pressure switch
- Can be used as an intermediate distributor for varying air qualities
- Optional pressure sensor

### Ordering data - modular system

Configurable product

This product and all its product options can be ordered online via the configurator.

### Function

Air distributor with 4 connections

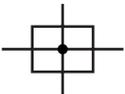

### Pneumatic connection

Depending on the size, different connection types can be selected:

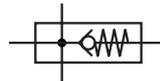

- Individual fittings that are fastened via a female thread
- Connecting plates with female thread

### Additional function

[ ] None

[!] With integrated non-return function

prevents backflow, e.g. of lubricated compressed air

### Pressure gauge alternatives

Two pressure gauge connections for variable installation

### Alternative pressure gauge scale

The scaling of the built-in pressure gauge can be selected. The unit options available are [MPa], [bar] / [psi].

### Pressure switch

Optionally available with different pressure switches.

### Type of mounting

[WP] Mounting bracket basic design

- For wall mounting a single device or a service unit combination

[WPM] Mounting bracket for hooking in service unit components

- For wall mounting an individual device

## Characteristics

[WB] Mounting centrally at rear (wall mounting top and bottom), connecting plates not required

- For wall mounting an individual device

### EU certification

Optional device variant EX4 for use in potentially explosive areas of zones 1, 2, 21 and 22

### UL certification

Optional device variant UL1, which meets the safety requirements for the Canadian and US markets.

### Flow direction

Available with flow in the opposite direction.
