## Displacement encoder MLO-POT-1750-TLF Part number: 152635

## **Data sheet**

| Feature                                  | Value   |
|--|---|
| CE mark (see declaration of conformity)  | To EU EMC Directive                                       |
| Functional principle of measuring system | Analogue  |
| Ambient temperature                      | -30 °C100 °C  |
| Recommended wiper current                | 1 µA  |
| Max. wiper current, short-time           | 10 mA   |
| Max. travel speed                        | 10 m/s  |
| Max. travel acceleration                 | 200 m/s <sup>2</sup>                                      |
| Displacement resolution                  | 0.01 mm   |
| Non-dependent linearity                  | 0.03 %  |
| Temperature coefficient                  | 5 ppm/K   |
| Stroke                                   | 1750 mm   |
| Output signal                            | Analogue  |
| Connection resistance                    | 20 kOhm   |
| Connection resistance tolerance          | 20 %  |
| Nominal operating voltage DC             | 10 V  |
| Max. operating voltage DC                | 42 V  |
| Permissible voltage fluctuations         | <1%   |
| Max. current consumption                 | 4 mA  |
| Electrical connection                    | 4-pin<br>Type A<br>Plugs<br>To DIN 43650<br>Square design |
| Design                                   | With cover strip<br>With moving slide<br>Open profile     |
| Parallel offset of coupling              | ± 1.5 mm  |
| Angle offset of driver                   | ±1°   |
| Mounting position                        | optional  |
| Product weight                           | 3500 g  |
| Material housing                         | Wrought aluminium alloy<br>Anodised                       |
| Material covering                        | Steel   |

**FESTO** 

| Feature   | Value                         |
|---|-------------------------------|
| Material slide housing                              | Die-cast aluminium<br>Polymer |
| Material slide coupling                             | Steel                         |
| Material cover                                      | Polymer                       |
| Material mounting clips                             | PEI                           |
| Degree of protection at top                         | To IEC 60529                  |
| Degree of protection at bottom                      | To IEC 60529                  |
| Vibration resistance to DIN/IEC 68 Part 2-6         | Tested to severity level 2    |
| Continuous shock resistance to DIN/IEC 68 Part 2-82 | Tested to severity level 2    |
| LABS (PWIS) conformity                              | VDMA24364-B2-L                |
