

# Indexing conversion kit DADM-CK-140-6

Part number: 548111

FESTO

## Data sheet

| Feature                        | Value                                             |
|--------------------------------|---------------------------------------------------|
| Size                           | 140                                               |
| Corrosion resistance class CRC | 2 - Moderate corrosion stress<br>(when installed) |
| LABS (PWIS) conformity         | VDMA24364-B2-L                                    |
| Note on materials              | RoHS-compliant                                    |
| Material plate                 | Steel                                             |
| Material screws                | Steel                                             |
