

Commissioning GFCH-A2

Part number: 8141549

FESTO

Data sheet

Feature	Value
Design	Integrating the motor controller into the higher-order controller – locally
Scope of action	Introduction to the design of the function modules and their functionality Function test of the relevant function blocks for controlling the axis system using a sample project Test comm. axis system/master PLC On-site support for integrating the necessary function blocks for controlling axis systems (up to 3 axes) into the master PLC (Festo, Siemens, AllenBradley, Beckhoff, Omron) based on an empty project
Work involved on site	4 working hours
Customer requirements	Use of Festo components Access to the machine or system Mechanical, pneumatic and electrical work is completed Qualified personnel responsible for the machine must be present on the agreed date
Provision of services	8-10 days subject to agreement
