

**Covering kit**  
**MS9-RB-10**  
Part number: 8147576

**Data sheet**

| Feature                        | Value                         |
|--------------------------------|-------------------------------|
| Size                           | 9                             |
| Series                         | MS                            |
| Corrosion resistance class CRC | 2 - Moderate corrosion stress |
| LABS (PWIS) conformity         | VDMA24364-B1/B2-L             |
| Media temperature              | -10 °C...60 °C                |
| Product weight                 | 170 g                         |
| Material covering              | PA                            |
| Note on materials              | RoHS-compliant                |
