## Ball valve actuator unit VZBA-21/2"-WW-63-T-22-F0710-V4V4T-PS120-R-90-4-C Part number: 1774111

**FESTO** 

## **Data sheet**

| Feature                                  | Value                                                                                          |
|------------------------------------------|------------------------------------------------------------------------------------------------|
| Structural design                        | 2-way ball valve                                                                               |
|                                          | Quarter turn actuator                                                                          |
| Actuation type                           | Pneumatic                                                                                      |
| Mounting position                        | Any                                                                                            |
| Type of mounting                         | Line installation                                                                              |
| Fitting connection                       | Weld-on ends/weld-on ends                                                                      |
| Switching position indication            | Slot direction = flow direction                                                                |
| Nominal width DN                         | 65                                                                                             |
| Operating pressure                       | 6 bar8.4 bar                                                                                   |
| Nominal pressure of fitting PN           | 63                                                                                             |
| Medium                                   | Compressed air as per ISO 8573-1:2010 [-:-:-] Inert gas Water – no water vapor Neutral liquids |
| Operating medium                         | Compressed air as per ISO 8573-1:2010 [7:4:4]                                                  |
| Information on operating and pilot media | Operation with oil lubrication possible (required for further use)                             |
| Temperature of medium                    | -10 °C200 °C                                                                                   |
| Ambient temperature                      | -10 °C80 °C                                                                                    |
| Flow rate Kv                             | 507 m³/h                                                                                       |
| Max. surface temperature of assembly     | TX                                                                                             |
| Explosion group of assembly              | IIC, IIIC                                                                                      |
| Note on materials                        | RoHS-compliant                                                                                 |
| LABS (PWIS) conformity                   | VDMA24364 zone III                                                                             |
| Housing material                         | High-alloy stainless steel                                                                     |
| Material number of housing               | 1.4408                                                                                         |
| Seals material                           | PTFE<br>PTFE-reinforced                                                                        |
| Ball material                            | High-alloy stainless steel                                                                     |
| Material number for ball                 | 1.4408                                                                                         |
| Shaft material                           | High-alloy stainless steel                                                                     |
| Material number for shaft                | 1.4401                                                                                         |
| Product weight                           | 16300 g                                                                                        |
|                                          | •                                                                                              |

| Feature                             | Value                                                     |
|-------------------------------------|-----------------------------------------------------------|
| Explosion prevention and protection | Zone 1 (ATEX) Zone 2 (ATEX) Zone 21 (ATEX) Zone 22 (ATEX) |
| Explosive ambient temperature       | -10°C <= Ta <= +60°C                                      |
| Corrosion resistance class (CRC)    | 3 - High corrosion stress                                 |
