

**Illuminating seal**  
**MF-LD-12-24DC**  
Part number: 19143

**FESTO**

**Data sheet**

| Feature                       | Value                                       |
|-------------------------------|---------------------------------------------|
| Switching position indication | LED                                         |
| Type of mounting              | On air solenoid valve with M3 central screw |
| Product weight                | 1.6 g                                       |
| Electrical connection         | Form B<br>Rectangular design MSF            |
| DC operating voltage range    | 12 V...24 V                                 |
| Protective earth connection   | Available                                   |
| Nominal power luminous seal   | 0.05 W                                      |
| Degree of protection          | IP65                                        |
| Ambient temperature           | -25 °C...85 °C                              |
| LABS (PWIS) conformity        | VDMA24364-B2-L                              |
| Housing material              | TPE-U(PU)                                   |
| Color                         | Transparent                                 |
