

**Retaining clip**  
**MKRS-16,5-B**  
Part number: 192289

**Data sheet**

| Feature                          | Value                                                           |
|----------------------------------|-----------------------------------------------------------------|
| Mounting position                | Any                                                             |
| Corrosion resistance class (CRC) | 2 - Moderate corrosion stress                                   |
| LABS (PWIS) conformity           | VDMA24364-B2-L                                                  |
| Ambient temperature              | -30 °C...80 °C                                                  |
| Product weight                   | 12 g                                                            |
| Type of mounting                 | Profile mounting<br>Plug-in<br>With through-hole<br>Optionally: |
| Note on materials                | RoHS-compliant                                                  |
