Filter regulator MS6-LFR-1/4-D6-CRM-AS Part number: 529196

FESTO

Data sheet

can I g position Verti filtration ate drain I design densate volume r function Outl With rd f condensate separation gauge with g pressure 0,08 0,8 b regulation range ssure hysteresis 0,02 0,25 3,62 nominal flow rate g medium Com Inert r resistance class (CRC) //S) conformity VDM	knob with detent closed with accessories l+/- 5° Illy rotating egulator with pressure gauge pressure constant econdary exhausting bowl guard essure gauge IPa2 MPa20 bar
MS lock Rota can light position Filtration Sposition Aldesign Aldesign Filter Adensate volume Function Coutlimeter Again Agai	closed with accessories l +/- 5° Illy rotating egulator with pressure gauge pressure constant econdary exhausting bowl guard essure gauge IPa2 MPa
Rota can I g position If g p p p p p p p p p p p p p p p p p p	closed with accessories l +/- 5° Illy rotating egulator with pressure gauge pressure constant econdary exhausting bowl guard essure gauge Pa2 MPa
can I g position Verti filtration ate drain I design densate volume r function Outl With rd f condensate separation gauge with g pressure 0,08 0,8 b regulation range ssure hysteresis 0,02 0,25 3,62 nominal flow rate g medium Com Inert r resistance class (CRC) //S) conformity VDM	closed with accessories l +/- 5° Illy rotating egulator with pressure gauge pressure constant econdary exhausting bowl guard essure gauge Pa2 MPa
filtration 5 µm ate drain Man I design Filter densate volume 38 m r function Outl With rd Plast f condensate separation 75 % gauge with g pressure 0.08 0.8 b regulation range 0.3 b regulation range 0.02 0.25 3.62 nominal flow rate g medium Com In resistance class (CRC) VDM	lly rotating egulator with pressure gauge pressure constant econdary exhausting bowl guard essure gauge Pa2 MPa
ate drain Man I design Filter densate volume 38 m r function Outl With rd Plast f condensate separation 75 % gauge with g pressure 0.08 0.8 b regulation range 0.3 b ssure hysteresis 0.02 0.25 3.62 nominal flow rate g medium Com Inert or resistance class (CRC) 2 - N //S) conformity VDM	pressure constant econdary exhausting bowl guard essure gauge
I design densate volume r function Outl With rd f condensate separation gauge with g pressure outl gauge vith g pressure outl vith regulation range outl regulation rang	pressure constant econdary exhausting bowl guard essure gauge
densate volume r function Outlifying rd Plast f condensate separation gauge with g pressure 0.08 0.8 b regulation range ssure hysteresis 0.02 0.25 3.62 nominal flow rate g medium resistance class (CRC) VIS) conformity 38 m 0.01 0.02 0.08 0.08 0.08 0.08 0.08 0.08 0.02 0.02	pressure constant econdary exhausting bowl guard essure gauge Pa2 MPa
r function Outli With rd Plast f condensate separation 75 % gauge with g pressure 0.08 0.8 t regulation range 0.3 t ssure hysteresis 0.02 0.25 3.62 nominal flow rate g medium Com Inert or resistance class (CRC) 2 - N/IS) conformity VDM	econdary exhausting bowl guard essure gauge Pa2 MPa
With rd Plast f condensate separation 75 % gauge with g pressure 0.08 to 8.8 to 9.8 to	econdary exhausting bowl guard essure gauge Pa2 MPa
f condensate separation gauge with g pressure 0.08 0.8 th regulation range ssure hysteresis 0.02 0.25 3.62 nominal flow rate g medium Complete presistance class (CRC) //S) conformity VDM	essure gauge Pa2 MPa
gauge with g pressure 0.08 o.8 tregulation range 0.3 tregulation range 0.02 o.25 o.25 o.25 o.62 o.62 o.62 o.62 o.62 o.62 o.62 o.62	Pa2 MPa
g pressure 0.08 to 0.8 to 0.9	Pa2 MPa
0.8 b regulation range 0.3 b ssure hysteresis 0.02 0.25 3.62 nominal flow rate 2700 g medium Com n resistance class (CRC) 2 - N /IS) conformity VDM	
0.02	
0.25 3.62 nominal flow rate 2700 g medium Com Inert resistance class (CRC) 2 - N VDM	7 bar
g medium Com Inert In resistance class (CRC) 2 - N VIS) conformity VDM	ar
Inert n resistance class (CRC) 2 - N /IS) conformity VDM	/min
/IS) conformity VDM	essed air as per ISO 8573-1:2010 [-:4:-] as
·	derate corrosion stress
emperature -10 °	24364-B1/B2-L
'	60 ℃

veight 875	60 ℃

Feature	Value
Type of mounting	Front panel mounting Line installation With accessories Optionally:
Pneumatic connection 1	G1/4
Pneumatic connection 2	G ¹ / ₄
Note on materials	RoHS-compliant
Material of operator panel	PA POM
Seals material	NBR
Compressed air filter material	PE
Housing material	Die-cast aluminum
Diaphragm material	NBR
Material of bowl	PC
Separating disc material	РОМ
