Swivel actuator unit DSL-16-25-270-P-A-S20-KF-B

FESTO

Part number: 556585

Data sheet

Inting position Any Isision adjustment Geteg Ide of operation Cural design Cural design Tor proximity s Through, hollo Through, hollo Through pection against torsion/guide Through persone Through pection against torsion/guide Through pection against torsi	
on diameter vel angle o deg272 de prioning Elastic cushion Any dision adjustment -6 deg de of operation Double-acting ctural design tion sensing For proximity s ants Through, hollo ection against torsion/guide rating pressure limpact velocity swivel frequency at 6 bar vel angle backlash etition accuracy rating medium Compressed ai rmation on operating and pilot media operation with osion resistance class (CRC) S (PWIS) conformity vel medical force at 6 bar, retracting oretical force at 6 bar, advancing oretical torque at 6 bar 1.25 Nm oretical torque at 6 bar 1.25 Nm	g
vel angle 0 deg272 de nioning Elastic cushion Any dision adjustment -6 deg Double-acting Rotary vane tion sensing For proximity sants Through, hollo ection against torsion/guide Guided on ball rating pressure 2.5 bar8 bar 2 Hz vel angle backlash 0.05 deg etition accuracy 1 deg rating medium Compressed air rmation on operating and pilot media Operation with osion resistance class (CRC) 1 - Low corrosi S (PWIS) conformity VDMA24364-B oretical force at 6 bar, retracting president of the protectical force at 6 bar, advancing oretical torque at 6 bar 1.25 Nm oretical torque at 6 bar 1.25 Nm	
Elastic cushion Any Inting position Inting pressing Inting proximity so ants Intrough, hollo Inting pressure Inting pressur	
Inting position Any Isision adjustment Gedeg Ie of operation Cural design Rotary vane Through, hollo Rotion against torsion/guide Rotion against torsion/guide Rotion against torsion/guide Rotion against torsion/guide Guided on ball Rotion against torsion/guide For proximity 500 mm/s Soo mm/s 2 Hz Rotion against torsion/guide Job mall Rotion against torsion/guide Guided on ball Rotion against torsion/guide Job mall Rotion against torsion/guide Guided on ball Rotion against torsion/guide Job mall Rotion against torsion/guide Guided on ball Rotion against torsion/guide Job mall Rotion against torsion/guide Guided on ball Rotion against torsion/guide Job mall Rotion against torsion/guide Guided on ball Rotion against torsion/guide Guided on ball Rotion against torsion/guide Guided on ball For proximity Soo mm/s Job mall Rotion against torsion/guide Guided on ball For proximity Job mall Through, hollo Guided on ball Guided on ball Through, hollo	g
le of operation Double-acting Rotary vane tion sensing For proximity stants Through, hollo ection against torsion/guide Guided on ball rating pressure 2.5 bar8 bar impact velocity 500 mm/s 2 Hz vel angle backlash 0.05 deg etition accuracy 1 deg rating medium Compressed ai rmation on operating and pilot media Operation with osion resistance class (CRC) 1 - Low corrosi S (PWIS) conformity VDMA24364-B oretical force at 6 bar, retracting pressure 2.5 km oretical force at 6 bar, advancing 1.25 km oretical torque at 6 bar 1.25 km	ing rings/pads at both ends
le of operation ctural design tion sensing Tor proximity s ants Through, hollo ection against torsion/guide ection against torsion/guide guided on ball rating pressure Limpact velocity Swivel frequency at 6 bar rel angle backlash etition accuracy rating medium Compressed ai rmation on operating and pilot media Operation with osion resistance class (CRC) S (PWIS) conformity VDMA24364-B oretical force at 6 bar, retracting Operation g oretical force at 6 bar, advancing Operation g Op	
ctural design for proximity s ants Through, hollo ection against torsion/guide guided on ball rating pressure . impact velocity . swivel frequency at 6 bar vel angle backlash etition accuracy rating medium Compressed ai rmation on operating and pilot media osion resistance class (CRC) S (PWIS) conformity VDMA24364-B pient temperature oretical force at 6 bar, retracting oretical force at 6 bar, advancing oretical torque at 6 bar Through, hollo Guided on ball Guided on	
tion sensing ants Through, hollo ection against torsion/guide rating pressure . impact velocity . swivel frequency at 6 bar vel angle backlash etition accuracy rating medium Compressed ai rmation on operating and pilot media osion resistance class (CRC) S (PWIS) conformity venture temperature oretical force at 6 bar, retracting oretical force at 6 bar, advancing oretical torque at 6 bar Through, hollo Guided on ball 2.5 bar8 bar 2.5 bar8 bar 2.0 Hz 2.1 Hz 2.2 Hz 2.2 Hz 2.3 Hz 2.4 Hz 2.5 Hz 2.5 Nm	
Through, hollo guided on ball rating pressure 2.5 bar8 bar 2.5 bar8 bar 500 mm/s 500 mm/s 2 Hz Impact velocity 500 mm/s 2 Hz Impact velocity 1 deg 2 degree vel angle backlash 50.05 deg 2 degree vel angle backlash 50.05 deg 2 degree vel angle backlash 50.05 deg 50 degree vel angle backlash 50.05 deg 50 degree vel vel angle backlash 50.05 deg 50.05 de	
ection against torsion/guide rating pressure . impact velocity . swivel frequency at 6 bar vel angle backlash etition accuracy rating medium Compressed ai rmation on operating and pilot media osion resistance class (CRC) S (PWIS) conformity VDMA24364-B Dient temperature oretical force at 6 bar, retracting pretical torque at 6 bar oretical torque at 6 bar 2 Hz 2 O.05 deg 2 tompressed ai Operation with Operation with Operation with Operation on operating and pilot media Operation with Operation with Operation of the pretical operation of the pretical force at 6 bar, retracting Operation of the pretical force at 6 bar, advancing Operation of the pr	ensor
rating pressure 2.5 bar8 bar impact velocity 500 mm/s . swivel frequency at 6 bar 2 Hz vel angle backlash 0.05 deg etition accuracy 1 deg rating medium Compressed ai rmation on operating and pilot media Operation with osion resistance class (CRC) 1 - Low corrosi S (PWIS) conformity VDMA24364-B pient temperature -10 °C60 °C amic load torque 0.17 Nm pretical force at 6 bar, retracting 73.5 N pretical force at 6 bar, advancing 103.5 N pretical torque at 6 bar 1.25 Nm	w piston rod
. impact velocity 500 mm/s . swivel frequency at 6 bar 2 Hz vel angle backlash 0.05 deg etition accuracy 1 deg rrating medium Compressed ai rmation on operating and pilot media Operation with osion resistance class (CRC) 1 - Low corrosi S (PWIS) conformity VDMA24364-B oient temperature -10 °C60 °C amic load torque 0.17 Nm oretical force at 6 bar, retracting 73.5 N oretical force at 6 bar, advancing 103.5 N oretical torque at 6 bar	bearings
. swivel frequency at 6 bar zel angle backlash etition accuracy rating medium compressed ai rmation on operating and pilot media operation with osion resistance class (CRC) S (PWIS) conformity VDMA24364-B oient temperature -10 °C60 °C amic load torque oretical force at 6 bar, retracting oretical force at 6 bar, advancing overtical torque at 6 bar 1.25 Nm	
vel angle backlash o.05 deg rating medium compressed ai rmation on operating and pilot media osion resistance class (CRC) frequency orentical force at 6 bar, advancing ologo deg	
rating medium Compressed ai rmation on operating and pilot media Operation with osion resistance class (CRC) 1 - Low corrosi S (PWIS) conformity VDMA24364-B oient temperature -10 °C60 °C amic load torque O.17 Nm oretical force at 6 bar, retracting retical force at 6 bar, advancing oretical torque at 6 bar 1.25 Nm	
rating medium Compressed ai rmation on operating and pilot media Operation with osion resistance class (CRC) 1 - Low corrosi S (PWIS) conformity VDMA24364-B olient temperature -10 °C60 °C amic load torque O.17 Nm oretical force at 6 bar, retracting 73.5 N oretical force at 6 bar, advancing 103.5 N oretical torque at 6 bar 1.25 Nm	
rmation on operating and pilot media Operation with osion resistance class (CRC) 1 - Low corrosi S (PWIS) conformity VDMA24364-B sient temperature -10 °C60 °C amic load torque O.17 Nm oretical force at 6 bar, retracting 73.5 N oretical force at 6 bar, advancing 103.5 N oretical torque at 6 bar 1.25 Nm	
osion resistance class (CRC) 1 - Low corrosi S (PWIS) conformity VDMA24364-B sient temperature -10 °C60 °C amic load torque 0.17 Nm oretical force at 6 bar, retracting 73.5 N oretical force at 6 bar, advancing 103.5 N oretical torque at 6 bar 1.25 Nm	r as per ISO 8573-1:2010 [7:4:4]
S (PWIS) conformity VDMA24364-B sient temperature -10 °C60 °C amic load torque 0.17 Nm oretical force at 6 bar, retracting 73.5 N oretical force at 6 bar, advancing 103.5 N oretical torque at 6 bar 1.25 Nm	oil lubrication possible (required for further use)
pient temperature -10 °C60 °C amic load torque 0.17 Nm oretical force at 6 bar, retracting 73.5 N oretical force at 6 bar, advancing 103.5 N oretical torque at 6 bar 1.25 Nm	on stress
amic load torque 0.17 Nm pretical force at 6 bar, retracting 73.5 N pretical force at 6 bar, advancing 103.5 N pretical torque at 6 bar 1.25 Nm	2-L
oretical force at 6 bar, retracting 73.5 N oretical force at 6 bar, advancing 103.5 N oretical torque at 6 bar 1.25 Nm	
oretical force at 6 bar, advancing 103.5 N oretical torque at 6 bar 1.25 Nm	
oretical torque at 6 bar 1.25 Nm	
·	
niceible mass memort of inertia	
missible mass moment of mertia 3.32-03 kgm	
duct weight 700 g	
c weight with 0 mm stroke 700 g	
itional weight per 10 mm stroke 33 g	

Feature	Value
Type of mounting	Clamped in T slot With external thread Optionally:
Pneumatic connection	M5
Cover material	Wrought aluminum alloy Anodized
Seals material	TPE-U(PU)
Housing material	Wrought aluminum alloy Smooth anodized
Piston rod material	Tempered steel
