## Air solenoid valve VUVS-L30-P53C-MZD-G38-F8-1C1

**FESTO** 

Part number: 575619

## **Data sheet**

| Feature                    | Value                                        |
|----------------------------|----------------------------------------------|
| Valve function             | 5/3, closed                                  |
| Actuation type             | Electrical                                   |
| Valve size                 | 31 mm                                        |
| Standard nominal flow rate | 2000 l/min                                   |
| Pneumatic working port     | G3/8                                         |
| Operating voltage          | 24V DC                                       |
| Operating pressure         | -0.09 MPa1 MPa<br>-0.9 bar10 bar             |
| Structural design          | Piston gate valve                            |
| Reset method               | Mechanical spring                            |
| Certification              | c UL us - Recognized (OL)                    |
| Degree of protection       | IP65<br>With plug socket<br>as per IEC 60529 |
| Nominal width              | 8.9 mm                                       |
| Exhaust air function       | With flow control option                     |
| Sealing principle          | Soft                                         |
| Mounting position          | Any                                          |
| Manual override            | Detenting<br>Non-detenting                   |
| Type of control            | Pilot-controlled                             |
| Pilot air supply port      | External                                     |
| Flow direction             | Reversible                                   |
| Lap                        | Overlap                                      |
| Pilot pressure MPa         | 0.25 MPa1 MPa                                |
| Pilot pressure             | 2.5 bar10 bar                                |
| b-value                    | 0.4                                          |
| C value                    | 8.9 l/sbar                                   |
| Switching time off         | 76 ms                                        |
| On switching time          | 17 ms                                        |
| Changeover time            | 39 ms                                        |
| Duty cycle                 | 100%                                         |

| Feature                                  | Value                                                                                |
|------------------------------------------|--------------------------------------------------------------------------------------|
| Max. positive test pulse with 0 signal   | 2000 μs                                                                              |
| Max. negative test pulse on 1 signal     | 3600 μs                                                                              |
| Coil characteristics                     | 24 V DC: 3.3 W                                                                       |
| Permissible voltage fluctuations         | +/- 10 %                                                                             |
| Operating medium                         | Compressed air as per ISO 8573-1:2010 [7:4:4]                                        |
| Information on operating and pilot media | Operation with oil lubrication possible (required for further use)                   |
| Vibration resistance                     | Transport application test with severity level 2 as per FN 942017-4 and EN 60068-2-6 |
| Shock resistance                         | Shock test with severity level 2 as per FN 942017-5 and EN 60068-2-27                |
| Corrosion resistance class (CRC)         | 2 - Moderate corrosion stress                                                        |
| LABS (PWIS) conformity                   | VDMA24364-B1/B2-L                                                                    |
| Cleanroom class                          | Class 6 according to ISO 14644-1                                                     |
| Temperature of medium                    | -10 °C60 °C                                                                          |
| Pilot medium                             | Compressed air as per ISO 8573-1:2010 [7:4:4]                                        |
| Ambient temperature                      | -10 °C60 °C                                                                          |
| Product weight                           | 562 g                                                                                |
| Electrical connection                    | Form C<br>as per EN 175301-803                                                       |
| Type of mounting                         | On terminal strip<br>With through-hole<br>Optionally:                                |
| Venting hole connection                  | Not ducted                                                                           |
| Pilot exhaust air port 82                | M5                                                                                   |
| Pilot exhaust air port 84                | M5                                                                                   |
| Pilot air port 12                        | G1/8                                                                                 |
| Pilot air port 14                        | G1/8                                                                                 |
| Pneumatic connection 1                   | G3/8                                                                                 |
| Pneumatic connection 2                   | G3/8                                                                                 |
| Pneumatic connection 3                   | G3/8                                                                                 |
| Pneumatic connection 4                   | G3/8                                                                                 |
| Pneumatic connection 5                   | G3/8                                                                                 |
| Note on materials                        | RoHS-compliant                                                                       |
| Seals material                           | HNBR<br>NBR                                                                          |
| Housing material                         | Die-cast aluminum<br>Painted                                                         |
| Piston slide material                    | Wrought aluminum alloy                                                               |
| Material of screws                       | Steel, nickel-plated                                                                 |
