## Compact air cylinder ADN-25-40-I-PPS-A Part number: 577179

## **Data sheet**

| Feature                                  | Value                                                               |
|------------------------------------------|---------------------------------------------------------------------|
| Stroke                                   | 40 mm                                                               |
| Piston diameter                          | 25 mm                                                               |
| Piston rod thread                        | M6                                                                  |
| Cushioning                               | Self-adjusting pneumatic end-position cushioning                    |
| Mounting position                        | Any                                                                 |
| Conforms to standard                     | ISO 21287                                                           |
| Piston rod end                           | Internal thread                                                     |
| Position sensing                         | For proximity sensor                                                |
| Variants                                 | Piston rod at one end                                               |
| Operating pressure                       | 0.15 MPa1 MPa<br>1.5 bar10 bar                                      |
| Mode of operation                        | Double-acting Double-acting                                         |
| Operating medium                         | Compressed air as per ISO 8573-1:2010 [7:4:4]                       |
| Information on operating and pilot media | Operation with oil lubrication possible (required for further use)  |
| Corrosion resistance class (CRC)         | 2 - Moderate corrosion stress                                       |
| LABS (PWIS) conformity                   | VDMA24364-B1/B2-L                                                   |
| Cleanroom class                          | Class 6 according to ISO 14644-1                                    |
| Ambient temperature                      | -20 °C80 °C                                                         |
| Impact energy in the end positions       | 0.3 J                                                               |
| Cushioning length                        | 3.5 mm                                                              |
| Theoretical force at 6 bar, retracting   | 247 N                                                               |
| Theoretical force at 6 bar, advancing    | 295 N                                                               |
| Moving mass                              | 56 g                                                                |
| Product weight                           | 276 g                                                               |
| Type of mounting                         | With through-hole With internal thread With accessories Optionally: |
| Pneumatic connection                     | M5                                                                  |
| Note on materials                        | RoHS-compliant                                                      |
| Flange screws material                   | Steel                                                               |
| Cover material                           | Wrought aluminum alloy, anodized                                    |

| Feature                     | Value                                   |
|-----------------------------|-----------------------------------------|
| Seals material              | TPE-U(PUR)                              |
| Piston rod material         | High-alloy steel                        |
| Material of cylinder barrel | Wrought aluminum alloy, smooth-anodized |
