## Angle seat valve VZXA-B-TS6-13-M2-B1T-30-K-46-17-PM

**FESTO** 

Part number: 8111589

## **Data sheet**

| Feature                | Value                                                                                                                              |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------|
| Structural design      | Poppet valve with piston actuator                                                                                                  |
| Actuation type         | Pneumatic                                                                                                                          |
| Mounting position      | Any                                                                                                                                |
| Type of mounting       | Line installation                                                                                                                  |
| Cable connection       | Threaded sleeve G1/2 as per DIN ISO 228                                                                                            |
| Valve function         | 2/2                                                                                                                                |
| Flow direction         | Non-reversible<br>Under valve seat, for gaseous and liquid media                                                                   |
| Medium pressure        | 0 MPa3 MPa<br>0 bar30 bar                                                                                                          |
| Reset method           | Mechanical spring                                                                                                                  |
| Type of control        | Externally controlled                                                                                                              |
| Pneumatic connection   | Internal thread G1/8                                                                                                               |
| Operating pressure     | 0.5 MPa0.7 MPa<br>5 bar7 bar<br>72.5 psi101.5 psi                                                                                  |
| Medium                 | Vapor Hydraulic fluid based on mineral oil Inert gas Mineral oil Water Filtered compressed air, 200 µm filter mesh Neutral liquids |
| Control of the medium  | On/off mode                                                                                                                        |
| Operating medium       | Compressed air as per ISO 8573-1:2010 [7:4:4]                                                                                      |
| Max. viscosity         | 600 mm <sup>2</sup> /s                                                                                                             |
| Temperature of medium  | -10 °C180 °C                                                                                                                       |
| Ambient temperature    | 0 °C60 °C                                                                                                                          |
| Flow rate Kv           | 4.6 m³/h                                                                                                                           |
| Use in exterior area   | Weather-protected locations class C1 based on IEC 60654-1                                                                          |
| Note on materials      | RoHS-compliant                                                                                                                     |
| LABS (PWIS) conformity | VDMA24364 zone III                                                                                                                 |

| Feature                          | Value                      |
|----------------------------------|----------------------------|
| Valve housing material           | Brass                      |
| Material number, fitting housing | CW724R                     |
| Seals material                   | FPM                        |
| Spindle seal material            | PTFE                       |
| Seat seal material               | PTFE                       |
| Product weight                   | 1151 g                     |
| Actuator size                    | 46 mm                      |
| Stroke                           | 17 mm                      |
| Control function                 | Closed by spring force, NC |
| Position sensing                 | With mechanical indicator  |
| Drive housing material           | PA-reinforced              |
| Storage temperature              | -10 °C60 °C                |
| Degree of protection             | IP65<br>IP67               |
| Piston rod material              | High-alloy stainless steel |
| Cover material                   | PA-reinforced              |
