

## **Data sheet**

| Feature  | Value   |
|--|---|
| Application note                               | The product is suitable for industrial purposes only. Radio interference suppression measures may be required in residential areas. |
| Structural design                              | Mounting plate  |
| Performance Level (PL)                         | Category B, performance level b   |
| Dimensions W x L x H                           | 135 mm x 254 mm x 375 mm  |
| Fuse protection (short circuit)                | Internal electronic fuse  |
| Max. current consumption                       | 1.1 A   |
| Current consumption of the secondary circuit   | 5 A   |
| Max. power supply                              | 6 A   |
| Nominal operating voltage AC                   | 230 V   |
| Mains types                                    | TT<br>TN<br>IT  |
| Mains frequency                                | 50 Hz60 Hz  |
| Contamination level                            | 2   |
| CE marking (see declaration of conformity)     | As per EU EMC directive As per EU low voltage directive   |
| Corrosion resistance class (CRC)               | 0 - No corrosion stress   |
| LABS (PWIS) conformity                         | VDMA24364 zone III  |
| Storage temperature                            | -20 °C60 °C   |
| Relative air humidity                          | Max. 50 % at 40 ℃   |
| Protection against direct and indirect contact | PELV Grounding of all exposed conductive parts  |
| Degree of protection                           | IP20  |
| Ambient conditions                             | Interior  |
| Ambient temperature                            | 5 °C40 °C   |
| Nominal altitude of use above sea level        | 1000 m NN   |
| Product weight                                 | 4.2 kg  |
| Electrical connection                          | Spring-loaded terminal<br>Push-in   |
| Note on materials                              | RoHS-compliant  |
