

Remote commissioning GFCH-A2-R

Part number: 8141577

FESTO

Data sheet

Feature	Value
Structural design	Motor controller integration to the higher-level controller – remote
Scope of services	Introduction to the setup of the function modules and their functionality Function test of the relevant function blocks for controlling the axis system using an example project Remote support in integrating the necessary function blocks for controlling axis systems (up to 3 axes) into the master PLC (Festo, Siemens, AllenBradley, Beckhoff, Omron) based on an empty project Test comm. axis system/master PLC
Work involved on site	3 hours of work
Customer requirements	24 V logic and 230/400 V load voltage must be made available Switch and Ethernet cable must be available Local installation of FFT-software (see Support Portal) Local administrator rights Local installation of TeamViewer or Bomgar communication software Stable internet connection
Provision of services	8-10 days subject to agreement
