

**Cover kit**  
**MS12-RB-10**  
Part number: 8147577

**Data sheet**

| Feature                          | Value                         |
|----------------------------------|-------------------------------|
| Size                             | 12                            |
| Series                           | MS                            |
| Corrosion resistance class (CRC) | 2 - Moderate corrosion stress |
| LABS (PWIS) conformity           | VDMA24364-B1/B2-L             |
| Storage temperature              | -10 °C...60 °C                |
| Temperature of medium            | -10 °C...60 °C                |
| Product weight                   | 300 g                         |
| Covering material                | PA                            |
| Note on materials                | RoHS-compliant                |
