

## Fus oscilant ZNCF-50

Numar piesa: 174413

FESTO

## Fisa de date

| Caracteristica                       | Valoare                                      |
|--------------------------------------|----------------------------------------------|
| Dimensiune                           | 50                                           |
| Pe baza standardului                 | ISO 15552                                    |
| Clasa de rezistenta la coroziune KBK | 2 - Solicitare moderata din cauza coroziunii |
| Conformitatea LABS                   | VDMA24364-B2-L                               |
| Temperatura ambianta                 | -40 °C...150 °C                              |
| Greutate produs                      | 473 g                                        |
| Nota privind materialele             | Conform RoHS                                 |
| Material fixare                      | Otel inoxidabil turnat                       |
| Material suruburi                    | Otel galvanizat                              |
