

## Kit adaptare DHAA-G-Q11-35-B6-25-60/80

Numar piesa: 2023095

**FESTO**

### Fisa de date

| Caracteristica                       | Valoare                                                 |
|--------------------------------------|---------------------------------------------------------|
| Pozitie de instalare                 | orice                                                   |
| Clasa de rezistenta la coroziune KBK | 2 - Solicitare moderata din cauza coroziunii            |
| Conformitatea LABS                   | VDMA24364-B1/B2-L                                       |
| Tipul de montare                     | cu orificiu de trecere si surub<br>cu bucsa de centrare |
| Nota privind materialele             | Conform RoHS                                            |
| Material placa de adaptare           | Aluminiu<br>anodizat                                    |
| Material suruburi                    | Otel<br>galvanizat                                      |
| Material stifturi de centrare        | Otel                                                    |
