Function

Condensate drain
manual rotary
with pressure gauge

Condensate drain
semi or fully automatic
with pressure gauge

Flow rate
850 ... 7,200 l/min

Temperature range
-10 ... +60 °C

Input pressure
0.8 ... 20 bar

www.festo.com/en/
Spare_parts_service

Wearing parts kits

➔ 3-12

With this device, the filter and pressure regulator are combined into a single unit. The sintered filter with water separator removes contamination, pipe sinter, rust and condensate from the compressed air.

- Good control characteristics with low hysteresis and primary pressure compensation

- Good particle and condensate separation

- High flow rates

- Directly actuated diaphragm regulator

- Four pressure regulation ranges:
0.3 ... 4 bar, 0.3 ... 7 bar,
0.5 ... 12 bar and 0.5 ... 16 bar

- Lockable rotary knob

- Available with or without secondary venting

- Two pressure gauge connections for different fitting options

- Return flow option for exhausting from output 2 to output 1

- Optional pressure sensor with display

- Choice of filter cartridges: 5 µm or 40 µm

- Filter cartridges ➔ 11-10

Condensate drain

fully automatic

with pressure gauge

With this device, the filter and pressure regulator are combined into a single unit. The sintered filter with water separator removes contamination, pipe sinter, rust and condensate from the compressed air.

- Good control characteristics with low hysteresis and primary pressure compensation
- Good particle and condensate separation
- High flow rates
- Pilot actuated diaphragm regulator without intrinsic air consumption
- Three pressure regulation ranges:
0.3 ... 7 bar, 0.5 ... 12 bar and
0.5 ... 16 bar
- Pressure gauge connection for different fitting options

- Available with manual, fully automatic or fully automatic, electrically actuated condensate drain
- Setting values are secured by locking the rotary knob
- Rotary knob can be locked using accessories
- Choice of filter cartridges: 5 µm or 40 µm
- Filter cartridges → 11-10
