

Mounting attachments

Technical data

Mounting attachments enable valve terminals to be attached to walls and machine parts

Ordering data – H-rail mountings						
View	Product weight [g]	Material	Function	Dimensions [mm]	Part No.	Type
	69.6	Cold rolled steel	Mounting accessories (set) for H-rail mounting. Enables suitable valve terminals/modules to be attached to an H-rail. Has a small swivel lever on the right and left and mounting accessories.	62x24x13.5 (LxWxH) Material thickness: 3	18 649	IBGH-03-4,0
	79.5		Mounting accessories (set) for H-rail mounting. Enables suitable valve terminals/modules to be attached to an H-rail. Has a small swivel lever on the left, a large swivel lever on the right and mounting accessories.	62x24x13.5 81x24x13.5 (LxWxH) Material thickness: 3	18 747	IBGH-03-7,0
	44.1		Mounting accessories (set) for H-rail mounting. Enables suitable valve terminals/modules to be attached to an H-rail. Has a small swivel lever on the right and mounting accessories.	62x24x13.5 (LxWxH) Material thickness: 3	526 033	CPX-03-4,0
	48.3		Mounting accessories (set) for H-rail mounting. Enables suitable valve terminals/modules to be attached to an H-rail. Has a large swivel lever on the right and mounting accessories.	81x24x13.5 (LxWxH) Material thickness: 3	526 034	CPX-03-7,0

Mounting attachments

Technical data

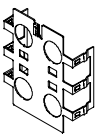

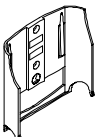

Ordering data – General attachments						
View	Product weight [g]	Material	Function	Dimensions [mm]	Part No.	Type
	35.1	Steel/polymer material	Base for H-rail mounting. Is screwed onto the component and the entire unit can then be placed on an H-rail.	47x12x18.1 (LxWxH)	170 169	CP-TS-HS-35
	29.9	Cold rolled steel	Mounting rail for H-rail mounting. Is screwed onto the component and the entire unit can then be placed on an H-rail. Includes M4x10 screw (combi cross-slot screws).	49.1x13x8.7 (LxWxH) Material thickness: 2	527 392	CPASC1-BG-NRH
	15.2	Cold rolled steel	Mounting rail for H-rail mounting. Is screwed onto the component and the entire unit can then be placed on an H-rail. Includes 2 M3x6 screws (Torx).	55.1x13x7.7 (LxWxH) Material thickness: 2	536 689	CPX-MMI-1-NRH
	10.5	Cold rolled steel	Clamping components for H-rail mounting. Are screwed onto the component and clamp it onto an H-rail. Includes M4x12 screw (combi cross-slot screws).	8 x 11.8 (LxW) Material thickness: 2.5	526 032	CPX-CPA-BG-NRH
	8.8				173 498	CPA-BG-NRH
	600	Steel	H-rail. Is screwed onto an even surface (wall) and can then support a large number of components.	35 x 7.5 (WxH) Material thickness: 1 Length acc. to requirements	35 430	NRH-35-2000

Ordering data – Wall mountings						
View	Product weight [g]	Material	Function	Dimensions [mm]	Part No.	Type
	8.8	Fine grained cold pressed steel	Mounting bracket for mounting valve terminals on even surfaces. Includes 2 M3x9 screws (internal hexagon socket SW 2.5)	18 x 15 (LxW) Material thickness: 2	534 416	VMPA-BG-RW
	23.5	Structural steel	Mounting bracket for mounting valve terminals on even surfaces. Includes 2 M3x10 screws (cross slot).	20 x 34 (LxW) Material thickness: 2	18 678	IBGW-03
	28.8	Semi-aromatic polyamide (IXEF)	Mounting bracket, acts as additional mounting for larger valve terminals	15x10.8x17.5 (LxWxH)	529 040	CPX-BG-RW-10x

	167.7			272.5 (L) 5 modules	195 726	CPX-ZA-5
	197.3			322.6 (L) 6 modules	195 728	CPX-ZA-6
	225.4			372.7 (L) 7 modules	195 730	CPX-ZA-7
	254.4			422.8 (L) 8 modules	195 732	CPX-ZA-8
	280.3			472.9 (L) 9 modules	195 734	CPX-ZA-9
	310			523 (L) 10 modules	195 736	CPX-ZA-10

Mounting attachments

Technical data

Examples illustrating H-rail mounting

With swivel levers

The valve terminal is attached to the H-rail and locked with the swivel lever.

- 1 H-rail
- 2 Valve terminal
- 3 Swivel lever

With mounting rail

The valve terminal is attached to the H-rail (see arrow A).
The valve terminal is then swivelled on the H-rail and secured in place with the clamping component (see arrow B).

- 1 Holes for wall mounting
- 2 Self-tapping M4x10 screw of the H-rail clamping unit
- 3 Clamping component of the H-rail clamping unit

With clamping components

The H-rail mounting is pressed into the reverse profile of the (CPX) modules. The modules can be attached to the H-rail using the H-rail mounting.

Mounting attachments

Technical data

Examples illustrating wall mounting

With mounting bracket

For longer valve terminals, there is an additional mounting bracket (for the CPX terminal) that can be fitted in any module.

Examples illustrating general types of mounting

With tie rod

The mechanical connection between the CPX modules is created using special tie rods. Two screws in the end plates are all that are needed to mount the entire unit.

The tie rod ensures that the unit resists high mechanical loads and is therefore the “mechanical backbone” of the CPX terminal.

The open design allows interlinking blocks to be replaced in the assembled state.

The tie rod expansion kit allows an extra module to be added to the CPX terminal.
