Key features and product range overview

FESTO

At a glance

- The guided drive is used wherever hygiene, ease of cleaning and resistance are important, predominantly in dry and splash zones in the food and packaging industry
- Corrosion-resistant in harsh ambient conditions
- Easy-to-clean design
- FDA-compliant
- Suitable for unlubricated operation
- Resistant to conventional cleaning agents
- For hygiene reasons, the threads on the end caps should be sealed with locking screws
- Variant (A3): special piston rod seal and guide rod wiper seal increase the service life of the drive

Areas of application:

- Bottling systems in the beverage industry
  - Labelling and palletising machines
- Milk processing
  - Filling ice cream and yoghurt containers, etc.
- Meat processing
- Confectionery production
- Bakery production
- Packaging industry
  - Foodstuffs, pharmaceuticals, cosmetics, chemicals, beverages and tobacco
