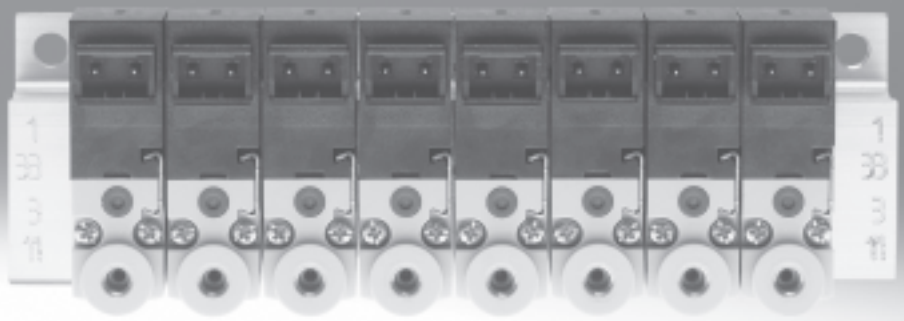
Solenoid valves MH1, miniature

FESTO



Complete product range for a wide range of applications

Extremely small
The new miniaturised generation of poppet valves offers flow rates of 14 l/min in the 2/2-way version or 10 l/min in the 3/2-way version. Either as an individual sub-base or pre-assembled on a PR manifold rail. In addition, mounting on a PR manifold rail enables very compact assembly. For increased requirements and speed, the bigger MH2 with a flow rate of up to 100 l/min is the ideal solution.

Extremely versatile and fast
The miniature valves can be linked together via a pneumatic multiple connector plate or electrical multi-pin plug. There is also a choice between horizontal electrical connections, on top and underneath. Furthermore, a connection for mounting on a PCB is available. All components are tested and assembled for Festo plug and work®. Need a system to run as fast as possible? No problem! The response time of the miniature valves is an impressive 4 ms.

Totally coordinated
Festo offers an extensive product range including drives, rodless drives, mini slides, rotary drives and accessories under the umbrella term “compact”. Perfectly coordinated and geared towards all production areas for the manufacture and processing of very small products. All the components comply with Festo’s proven quality standards and include the added value that only a global company can offer.

Miniature valves not just for the electronics industry ...

... but also for the light assembly, medical technology and semiconductor industries and wherever extremely compact and fast-switching valves or pilot valves are required for valves coming into contact with media (e.g. process industry). With response times of approximately 4 ms, these valves satisfy all requirements for speed. Vacuum functions can also be easily implemented. A 100% duty cycle and even a three-shift operation guarantee maximum cost-effectiveness.

With flow rates of 10 and 14 l/min for the miniature valves, there is always sufficient volume for pilot control of process valves. The flow rate is also adequate for Festo's wide range of compact cylinders, rotary drives and slides.
For increased requirements of up to 100 l/min: MH2.

Solenoid valves MH1, miniature

Product range overview

Function	Circuit symbol	Version	Voltage [V DC]			→ Page/ Internet
			5	12	24

Temperature of medium	Individual mounting	[°C]	–5 ... +50	
Temperature of medium	Manifold assembly	[°C]	–5 ... +40	
Storage temperature		[°C]	–20 ... +60	
Corrosion resistance class CRC			2[2]	

1) Vacuum operation possible with special connection method

2) Corrosion resistance class 2 as per Festo standard 940 070
Components subject to moderate corrosion stress. Externally visible parts with primarily decorative surface requirements which are in direct contact with a normal industrial environment or media such as coolants or lubricating agents.

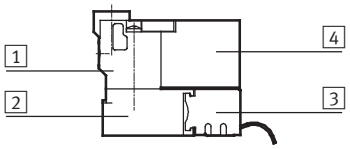
Solenoid valves MHA1, miniature

Technical data – Sub-base valve

Electrical data			
Valve function		2/2-way, single solenoid	3/2-way, single solenoid
Operating voltage	[V DC]	5 ±10%, 12 ±10% or 24 ±10%	
Type of connection		Plug connection	
Power consumption	[W]	1	
Duty cycle	[%]	100	
Protection class to EN 60529			
With plug socket KMH/NEBV-H1G2		IP40	
With plug base MHAP-PI			
With soldering base PCBC-A			
With Sub-D connector plug			

Response times and switching frequencies			
Valve function		2/2-way, single solenoid	3/2-way, single solenoid
Response time on/off	[ms]	4/5	4/4
Maximum switching frequency	[Hz]	20	

Materials



1	Housing	Polyphenylene sulphide
2	Sub-base	Aluminium
3	Plug base	Polyamide
4	Coil housing	Polyamide
–	Seals	Fluoro elastomer, nitrile rubber, hydrogenated nitrile rubber
	Note on materials	Free of copper and PTFE

Solenoid valves MHA1, miniature

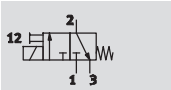
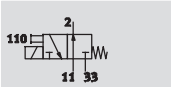
Technical data – Sub-base valve with LED

Function





Voltage

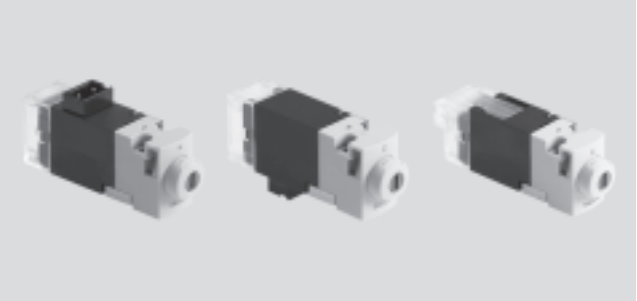
24 V DC

Pressure

0 ... +8 bar

Temperature range

–5 ... +50 °C



General technical data			
Valve function			3/2-way, single solenoid
Constructional design			Poppet valve with spring return
Sealing principle			Soft
Actuation type			Electric
Reset method			Mechanical spring
Type of pilot control			Direct
Direction of flow			Non-reversible
Exhaust function			With flow control
Manual override			Non-detenting/detenting
Signal status display			LED
Type of mounting			On sub-base via through-holes
Mounting position			Any
Nominal size		[mm]	0.65
Standard nominal flow rate		[l/min]	10
Grid dimension		[mm]	10
Pneumatic connection	Individual sub-base	1, 33	M3
		2	M3
		3, 11	M3
	Manifold assembly	1, 33	M7
		2	M3
		3, 11	M7
Product weight		[g]	11

Operating and environmental conditions			
Valve function			3/2-way, single solenoid
Operating medium			Filtered compressed air, lubricated or unlubricated, grade of filtration 40 µm
Operating pressure range	Normally closed	[bar]	0 ... 8[1]
	Normally open	[bar]	0 ... 6[1]
Ambient temperature	Individual mounting	[°C]	–5 ... +50
	Manifold assembly	[°C]	–5 ... +40
Temperature of medium	Individual mounting	[°C]	–5 ... +50
	Manifold assembly	[°C]	–5 ... +40
Storage temperature		[°C]	–20 ... +60
Corrosion resistance class CRC			2[2]

1) Vacuum operation possible with special connection method

2) Corrosion resistance class 2 as per Festo standard 940 070
Components subject to moderate corrosion stress. Externally visible parts with primarily decorative surface requirements which are in direct contact with a normal industrial environment or media such as coolants or lubricating agents.

	6 valves	**197249**	**MHA1-PR6-3-M3-PI-PCB**
	8 valves	**197250**	**MHA1-PR8-3-M3-PI-PCB**
	10 valves	**197251**	**MHA1-PR10-3-M3-PI-PCB**
Manifold block for mounting on PCB with pneumatic multiple connector plate for	4 valves	**197253**	**MHA1-PR4-3-PI-PCBM**
	6 valves	**197254**	**MHA1-PR6-3-PI-PCBM**
	8 valves	**197255**	**MHA1-PR8-3-PI-PCBM**
	10 valves	**197256**	**MHA1-PR10-3-PI-PCBM**

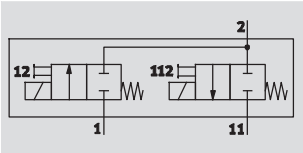
Note

Manifold blocks with an uneven number of valves and for 11 ... 24 valves as well as further variants can be configured and ordered using the MH1 modular product system.

Solenoid valves MHA1, miniature

Technical data – 2x2/2-way sub-base valve with LED

Function



Voltage

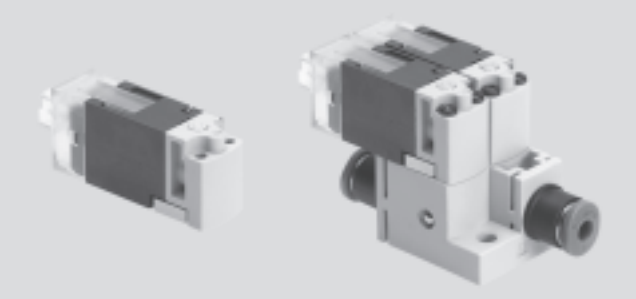
24 V DC

Pressure

– 0.95 ... +1.5 bar

Temperature range

–5 ... +50 °C



General technical data				
Valve function			2/2-way, single solenoid	2x2/2-way, single solenoid
Constructional design			Poppet valve with spring return	
Sealing principle			Soft	
Actuation type			Electric	
Reset method			Mechanical spring	
Type of pilot control			Direct	
Direction of flow			Non-reversible	
Exhaust function			No flow control	
Manual override			Non-detenting	
Signal status display			LED	
Type of mounting			On sub-base via through-holes	Via through-holes
Mounting position			Any	
Nominal size		[mm]	1.5	
Standard nominal flow rate		[l/min]	30	
Width		[mm]	10	20
Grid dimension		[mm]	10	
Pneumatic connection		1	–	QS3, QS4
		11	–	QS3, QS4
		2	–	QS3, QS4

Operating and environmental conditions				
Valve function			2/2-way, single solenoid	2x2/2-way, single solenoid
Operating medium			Filtered compressed air, lubricated or unlubricated, grade of filtration 40 µm	
Operating pressure	Port 1	[bar]	0 ... 1.5	
	Port 11	[bar]	– 0.95 ... 0	
Ambient temperature		[°C]	–5 ... +50	
Temperature of medium		[°C]	–5 ... +50	
Storage temperature		[°C]	–20 ... +60	
Corrosion resistance class CRC			2[1)]	

1) Corrosion resistance class 2 as per Festo standard 940 070
Components subject to moderate corrosion stress. Externally visible parts with primarily decorative surface requirements which are in direct contact with a normal industrial environment or media such as coolants or lubricating agents.

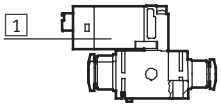
Electrical data			
Valve function		2/2-way, single solenoid	2x2/2-way, single solenoid
Operating voltage	[V DC]	24 ±10%	
Type of connection		Plug connection	
Power consumption	[W]	3, following current reduction 0.7	
Max. length of connecting cable	[m]	30	
Protection class to EN 60529			
With plug socket KMH/NEBV-H1G2		IP40	

Solenoid valves MHA1, miniature

Technical data – 2x2/2-way sub-base valve with LED

Response times and switching frequencies			
Valve function		2/2-way, single solenoid	2x2/2-way, single solenoid
Response time on/off	[ms]	6/2	
Maximum switching frequency	[Hz]	10	

Materials



1	Housing	Reinforced PA, reinforced PPS
–	Screws	Steel
–	Seals	HNBR, NBR
	Note on materials	Free of copper and PTFE RoHS-compliant

Dimensions

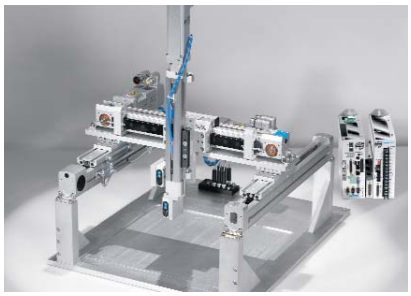
Product Range and Company Overview

A Complete Suite of Automation Services

Our experienced engineers provide complete support at every stage of your development process, including: conceptualization, analysis, engineering, design, assembly, documentation, validation, and production.

Custom Automation Components
Complete custom engineered solutions

Custom Control Cabinets
Comprehensive engineering support and on-site services



Complete Systems
Shipment, stocking and storage services

The Broadest Range of Automation Components

With a comprehensive line of more than 30,000 automation components, Festo is capable of solving the most complex automation requirements.

Electromechanical
Electromechanical actuators, motors, controllers & drives

Pneumatics
Pneumatic linear and rotary actuators, valves, and air supply

PLCs and I/O Devices
PLC's, operator interfaces, sensors and I/O devices

Supporting Advanced Automation... As No One Else Can!

Festo is a leading global manufacturer of pneumatic and electromechanical systems, components and controls for industrial automation, with more than 12,000 employees in 56 national headquarters serving more than 180 countries. For more than 80 years, Festo has continuously elevated the state of manufacturing with innovations and optimized motion control solutions that deliver higher performing, more profitable automated manufacturing and processing equipment. Our dedication to the advancement of automation extends beyond technology to the education and development of current and future automation and robotics designers with simulation tools, teaching programs, and on-site services.

Quality Assurance, ISO 9001 and ISO 14001 Certifications

Festo Corporation is committed to supply all Festo products and services that will meet or exceed our customers' requirements in product quality, delivery, customer service and satisfaction.

To meet this commitment, we strive to ensure a consistent, integrated, and systematic approach to management that will meet or exceed the requirements of the ISO 9001 standard for Quality Management and the ISO 14001 standard for Environmental Management.

FSC Printed on recycled paper at New Horizon Graphic, Inc., FSC certified as an environmentally friendly printing plant.
