

# AX Industrial App GASA-DA

FESTO

## Key features

### At a glance

The IOT gateway software Festo AX Data Access extracts data from Festo components and makes it available via MQTT.

It is the easy way to build data-driven solutions with data from Festo components.

This opens up a wide range of possibilities such as energy or condition monitoring.

### Description

Festo AX Data Access provides access to data from Festo components in completely newly planned and created solutions, as well as in existing systems (brownfield or greenfield).

This paves the way for:

- Making the installed base visible
- Implementing process monitoring in existing plants
- Realising integratable data-driven solutions that reduce downtime and energy consumption

Data is retrieved from Festo components and made available to other applications and IT systems via MQTT.

Festo AX Data Access is a protocol translator from OT to IT (Festo-specific protocols to MQTT) for a number of widely used Festo components:

- Electrical terminal CPX with valve terminal MPA-S or VTSA
- Servo drives CMMT-AS and CMMT-ST
- Intelligent maintenance units MSE6-E2M and MSE6-C2M
- Automation system CPX API

### Advantages

- Access to process, asset and smart data from devices in solutions that are completely newly planned and created, as well as in existing systems

- Transparency about the installed base of Festo components in terms of firmware version, IP address and much more.

- Easy access to sensor data without adjusting the PLC

- Basis for the modernization of data-driven solutions on existing machines

## Datasheet

- Software IOT gateway for data connection of Festo components
- No intervention in PLC programs necessary
- Use of existing cabling
- Querying the data via own protocols and providing the data via MQTT protocol
- Easy commissioning
- Can be used flexibly thanks to Docker technology (edge computers, cloud, etc.)

<b>General technical data</b>	
System requirements	CPU: at least 1-core, x86-64bit (Atom, Celeron or higher)
	Hard drive: 2 GB or more
	RAM: 1 GB or more
	1x network interface
	UI optimised for: 1024x768 or higher
Software requirements	Installed Docker runtime (OCI container)
	Docker Compose v2.0
Recommended browser version	Optimised for Webkit-based browsers and Firefox
Language	English
Protocols used	HTTP
	MQTT
	UDP
	TCP

## Datasheet

Components of the modular electrical terminal CPX that are supported			
Type	Part no.	Description	
CPX-CEC-C1-V3	<b>3473128</b>	CODESYS controller, CODESYS V3	
<b>Bus node</b>			
CPX-FB36	<b>1912451</b>	EtherNet/IP	
CPX-FB37	<b>2735960</b>	EtherCAT®	
CPX-FB43	<b>8110369</b>	PROFINET, M12 D-coded	
CPX-M-FB44	<b>8110370</b>	PROFINET, PushPull RJ45	
CPX-M-FB45	<b>8110371</b>	PROFINET, PushPull SCRJ	
<b>Input module</b>			
CPX-8DE	<b>195750</b>	8 digital inputs, positive logic (PNP)	
CPX-8DE-D	<b>541480</b>	8 digital inputs, positive logic (PNP), enhanced diagnostic function	
CPX-8NDE	<b>543813</b>	8 digital inputs, negative logic (NPN)	
CPX-16DE	<b>543815</b>	16 digital inputs, internal electronic fuse per module	
CPX-M-16DE-D	<b>550202</b>	16 digital inputs, internal electronic fuse per channel pair, for CPX in metal	
CPX-4AE-I	<b>541484</b>	4 analogue current inputs	
CPX-2AE-U-I	<b>526168</b>	2 analogue current or voltage inputs	
CPX-4AE-U-I	<b>573710</b>	4 analogue current or voltage inputs	
CPX-4AE-T	<b>541486</b>	For temperature inputs	
CPX-4AE-P-B2	<b>560361</b>	4 analogue pressure inputs, pressure range -1 ... +1 bar	
CPX-4AE-P-D10	<b>560362</b>	4 analogue pressure inputs, pressure range 0 ... 10 bar	
<b>Output module</b>			
CPX-4DA	<b>195754</b>	4 digital outputs, power supply 1 A per channel	
CPX-8DA	<b>541482</b>	8 digital outputs, power supply 0.5 A per channel	
CPX-8DA-H	<b>550204</b>	8 digital outputs, power supply 2.1 A per channel pair	
CPX-2AA-U-I	<b>526170</b>	2 analogue current or voltage outputs	
<b>Input/output module</b>			
CPX-8DE-8DA	<b>526257</b>	8 digital inputs, 8 digital outputs	
<b>Proportional pressure regulator</b>			
VPPM-6TA-L-1-F-0L6H-S1	<b>542218</b>	Nominal diameter 6 mm, pressure control range 0.006 ... 0.6 MPa	
VPPM-6TA-L-1-F-0L10H-S1	<b>542219</b>	Nominal diameter 6 mm, pressure control range 0.01 ... 1 MPa	
VPPM-8TA-L-1-F-0L6H-C1	<b>572411</b>	Nominal diameter 8 mm, pressure control range 0.006 ... 0.6 MPa	
<b>Electronic module for MPA-S</b>			
VMPA1-FB-EMS-8	<b>533360</b>	Width 10 mm, for fieldbus interface, without separate circuit	
VMPA1-FB-EMG-8	<b>533361</b>	Width 10 mm, for fieldbus interface, with separate circuit	
VMPA1-FB-EMS-D2-8	<b>543331</b>	Width 10 mm, for fieldbus interface, with enhanced diagnostic function, without separate circuit	
VMPA2-FB-EMS-4	<b>537983</b>	Width 20 mm, for fieldbus interface, without separate circuit	
VMPA2-FB-EMG-4	<b>537984</b>	Width 20 mm, for fieldbus interface, with separate circuit	
VMPA2-FB-EMS-D2-4	<b>543332</b>	Width 20 mm, for fieldbus interface, with enhanced diagnostic function, without separate circuit
