

Filter regulator MS-LFR-B

FESTO

Characteristics

At a glance

- Very compact and extremely lightweight series for use close to the process directly in the machine.
- Stable control response
- With secondary exhaust
- Integrated secondary exhaust and primary exhaust with return flow function
- The rotary knob locks into place to prevent unintentional rotation

Product segmentation

Festo Core Range

Solves the majority of your automation tasks

With the Festo Core Range, we have selected the most important products and functions from our broad product catalogue, and added the quickest delivery. the Core Range offers you the best value with the expected high Festo quality.

- Quickest delivery, worldwide – wherever, whenever
- Expected high Festo quality
- Easy and fast to select

Diagrams

Further information → [ms-lfr-b](#)

The diagrams shown in this document are also available online. These can be used to display precise values.

Function

- For stepless, precise adjustment of the required operating pressure
- The pressure regulator keeps the working pressure largely constant, irrespective of compressed air fluctuations in the network and due to air consumption

Pneumatic connection

Depending on the size, different connection types can be selected:

Individual fittings that are fastened via a female thread

- Built-in connections into which the tubing can be directly inserted

Pressure regulation range

The following ranges can be set:

- With MS2-...: 0.5 ... 7 bar
- With MS4-... and MS6-...: 0.3 ... 7 bar

Grade of filtration

Grade of filtration of 5 µm or 40 µm can be selected.

Condensate drain

The following functions can be selected:

- Manual
- Fully automatic, normally closed

Characteristics

Pressure gauge alternatives

The pressure regulator can be ordered with or without a pressure gauge. The interface has a thread of G1/8.

Alternative pressure gauge scale

The scaling of the built-in pressure gauge can be selected. The unit options available are [MPa], [bar] / [psi].

Special material properties

[F1A]	Recommended for production plants for manufacturing lithium-ion batteries, F1A
-------	--

Metals with more than 1% copper by mass are excluded from use. Exceptions are circuit boards, cables, electrical plug connectors and coils

Version

[B]	Second generation
-----	-------------------

Basic component with sturdy and lightweight polymer housing. Fully compatible with the MS series.

Type code

001	Series	
MS	MS series	

002	Size	
2	Grid dimension 25 mm	
4	Grid dimension 40 mm	
6	Grid dimension 62 mm	

003	Function	
LFR	Filter regulator	

004	Pneumatic connection	
M5	Female thread M5	
QS6	Push-in connector 6 mm	
1/4	Female thread G1/4	
1/2	Female thread G1/2	

005	Pressure regulation range	
D6	0.3 ... 7 bar	

006	Filter design	
C	5 µm	
E	40 µm	

007	Bowl type	
P	Polymer	

008	Condensate drain	
M	Manually	
VC	Fully automatic, normally closed	

009	Pressure gauge alternatives	
A8	Adapter for EN pressure gauge 1/8, without pressure gauge	
AG	MS pressure gauge	
AR	With pressure gauge	

010	Alternative pressure gauge scale	
	MS pressure gauge	
BAR	bar	
MPA	MPa	

011	Special material properties	
	None	
F1A	Recommended for production plants for manufacturing lithium-ion batteries, F1A
