

Pressure sensors SPAN

★

Worldwide:
Simply good:
Fast:

Festo Core Range
Solves the majority of your automation tasks

Quickest delivery – wherever, whenever
Expected high Festo quality
Easy and fast to select

With the Festo Core Range, we have selected the most important products and functions from our broad product catalogue, and added the quickest delivery.

The Core Range offers you the best value for your automation tasks.

Just look for the star!

Key features

At a glance

Communication interface
 IO-Link

- Practical design**
- Compact design 30x30 mm
 - Degree of protection IP40
 - Weight reduction with QS4

- Universal pressure measurement**
- Pressure and vacuum
 - 14 pressure measuring ranges
 - All standard pressure units
 - Optional test report

- Easy operation**
- Clear display
 - Configurable red surround for the entire display
 - Intuitive menu navigation

- Quick installation**
- L1 plug for fast commissioning
 - M8 electrical adapters allow maximum flexibility
 - Wide range of mounting options
 - QS4 quick connector

- Switchable electrical outputs**
- Various switching functions
 - Switching outputs (PNP/NPN, NO/NC)
 - Analogue outputs (0 ... 10 V, 1 ... 5 V, 4 ... 20 mA)

Product description	Area of application	Functions	Variants with IO-Link
The pressure sensor SPAN is suitable for monitoring compressed air and non-corrosive gases. The sensor can be used in many industries thanks to its compact design. The measuring method is based on a piezoresistive measuring cell for relative pressure measurement. The pressure value is transmitted to the connected controller as a switching signal, as an analogue signal or via IO-Link depending on the sensor variant and selected parameters.	• Network monitoring (pressure present) • Regulator monitoring (pressure in the setpoint range) • Vacuum (part picked up) • Leak test (pressure drop over time) • Object detection (back pressure present)	• Monitoring and setting a pressure threshold, a pressure range or differential pressure monitoring with teach-in function or by entering values • ECO function with option to switch off the display • Optional security code can be freely chosen (4-digit code) • Adjustable low-pass filter to smooth the pressure signal • Scaling the analogue output to increase the signal dynamics • Offset compensation possible • Min./max. value memory for monitoring compressed air • All settings that have been carried out on one sensor (master) can be transferred (replication) to identical sensors (device)	• Serial communication integrated using IO-Link 1.1 • Cyclical transfer of two operating statuses and the measured pressure value • The sensor can be parameterised remotely using an IO-Link master • Sensor can be changed easily using automatic parameterisation (hot swap) • Sensor identification, diagnostics and teach-in via IO-Link possible

2-step connection

[1] Push in L1 plug

[2] Push in tubing

Key features

Mounting options

Front panel mounting

Manifold mounting with mounting bracket

Threaded mounting with M8 adapter

Wall mounting

Accessories – Ordering data

Mounting bracket SAMH-PU-A

Type of mounting: via through-hole and screw. For mounting devices (standing or suspended) on even surfaces.

Material: High-alloy stainless steel

Note on materials: RoHS-compliant

Ordering data													
Type	B1	B2	D1 Ø	H1	H2	H3	H4	H5	L1	L2	CRC ¹⁾	Part no.	Type
SAMH-PU-A	29	22	4	49	20	25.6	35.6	2	14	9	2	8003354	SAMH-PU-A

1) Corrosion resistance class 2 to Festo standard 940070

Components subject to moderate corrosion stress. External visible parts with primarily decorative surface requirements which are in direct contact with the surrounding industrial environment or media such as coolants or lubricating agents.

Wall mounting SAMH-PN-W

Type of mounting: via through-hole and screw. For mounting devices on vertical surfaces.

Material: high-alloy stainless steel

Note on materials: RoHS-compliant

Safety guard

SACC-PN-G

To protect the display and control elements

Material: PA

Note on materials:

RoHS-compliant

Dimensions and ordering data							
Type	B1	H1	L1	L2	Part no.	Type	
SACC-PN-G	33.5	33.5	~31	7.7	★ 8035560	SACC-PN-G	

Front panel mounting kit

SAMH-PN-F

Mounting kit for front panel

Material: PA, POM

Note on materials:

RoHS-compliant

Accessories – Ordering data

Electrical adapter SASC-P4-A-M8-A

For outlet direction underneath¹⁾

Material of housing: Reinforced PA

Plug housing: Brass,
nickel-plated

Note on materials:

RoHS-compliant

Dimensions and ordering data

Type	B1	D1	H1	H2	H3	L1	L2	CRC ²⁾	Part no.	Type
SASC-P4-A-M8-A	29.6	M8x1	39.5	29.6	9.7	7	3.5	2	8000326	SASC-P4-A-M8-A

1) Only with connecting cable NEBU-M8-...

2) Corrosion resistance class CRC 2 to Festo standard FN 940070

Moderate corrosion stress. Indoor applications in which condensation can occur. External visible parts with primarily decorative surface requirements which are in direct contact with a normal industrial environment.

Pin allocation

Plug, 4-pin, M8x1

Round design	Pin	Core colour	Allocation
	1	Brown	Operating voltage +24 V DC
	2	White	Switching output B / analogue output / not connected
	3	Blue	0 V DC
	4	Black	Switching output A / IO-Link

Electrical adapter SASC-P4-A-M8-S

For outlet direction to the rear¹⁾

Material of housing: Reinforced PA

Plug housing: Brass,
nickel-plated

Note on materials:

RoHS-compliant

Dimensions and ordering data

Type	B1	B2	D1	H1	H2	L1	L2	CRC ²⁾	Part no.	Type

Adapters

SASA-PN-A-MG18

Material: Nickel-plated brass
Note on materials: RoHS-compliant

Dimensions and ordering data								
Type	D1	D2 Ø	L1	L2	CRC ¹⁾	≙G1	Part no.	Type
SASA-PN-A-MG18	G1/8	14	13	6	1	11	8133310	SASA-PN-A-MG18

1) Corrosion resistance class CRC 1 to Festo standard FN 940070
Low corrosion stress. Dry indoor application or transport and storage protection. Also applies to parts behind covers, in the non-visible interior area, and parts which are covered in the application (e.g. drive trunnions).
